Prince William County Neighborhood Services

Working with you for a better community!

Dumpster Days are organized by the Prince William County Department of Public Works - Neighborhood Services and Solid Waste Divisions, offering an opportunity for all county residents to participate.

We encourage residents to engage in community cleanups within their neighborhoods. Whether volunteering for litter pickups or utilizing the free County dumpsters to declutter and clear debris from their surroundings, community involvement is key to maintaining a clean and pleasant environment.

SPECIAL NOTE REGARDING HOUSEHOLD HAZARDOUS WASTE AND ELECTRONICS DISPOSAL

We are unable to accept fuel tanks, motor oil, fuel drums, household hazardous waste, antifreeze, paint, paint thinners, pesticides, pool chemicals, commercial waste, or electronics at these events.

These items can be appropriately disposed of at the County Landfill through the Household Hazardous Waste and Electronics Recycling Program. For further details on the correct disposal procedures, please contact (703) 792-5750.

When discarding household appliances, kindly ensure that refrigerators are emptied and cleaned, glass trays are removed from microwaves, and the refrigerator doors are securely taped before delivering them to the designated Dumpster Day location.
