PRINCE WILLIAM COUNTY CPMT

FY21 - FY23 STRATEGIC PLAN

THREE YEAR VISION

In three years, the Prince William County Children's Services Act will have a further defined and more comprehensive system of care that promotes effective services to support children and families. Access to services will be equitable and based on assessed needs, and children and families will be appropriately matched with services that are grounded in evidence-based practices and principles.

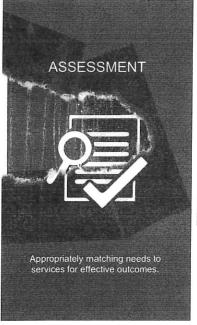

Information about access to services will be readily available to a wide variety of community stakeholders to include, but not limited to: families, public child-serving agencies, and private providers. Outcome measures and metrics will be clearly defined, be reported and reviewed regularly, and will drive decision-making with regard to system-level changes and enhancements. Innovation and creativity will be part of the process continually enhancing and shaping the path.

The CPMT with input from FAPT and other relevant CSA stakeholders will develop a centralized system or hub for all relevant parties to access information related to services.

Three Year Metric: The centralized hub will be fully developed and ready for implementation.

One Year Metric: Form a committee who will identify what service information needs to be available and recommend a user-friendly platform for the centralized hub.

Prince William County CSA will develop a user-friendly process for effectively utilizing CANS to inform treatment planning.

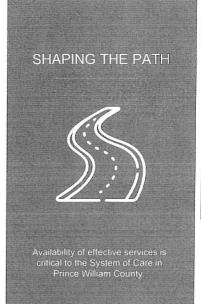

Three Year Metric: Training will be fully implemented, and CSA case plans will consistently reflect CANS areas of need related to services being recommended through CSA funds.

One Year Metric: With rich input, the CSA staff will develop a comprehensive training plan with the goal of the effective scoring and use of CANS in the development of CSA service plans.

The CPMT will conduct an assessment on all current data collected to identify areas for additional data collection.

Three Year Metric: Leading and lagging indicators will be presented routinely to CPMT and will be utilized to address improved outcomes for youth.

One Year Metric: Form a committee with the goal of assessing existing data, categorizing them (leading and lagging indicators), with a recommendation on which metrics CPMT will review regularly.

The CSA system of care in Prince William County will see an increase the diversity and frequency of use of appropriate evidence-based practices and principles.

Three Year Metric: Ensure Prince William County has a wide variety of service providers providing services that are evidence-based or evidence-informed.

One Year Metric: Form a committee to identify which evidence-based practices are available and determine which evidence-based principles are valuable.

CPMT will support preferred use of CSA pool funds for providers in the CSA system of care that routinely have positive outcomes.

Three Year Metric: Outcome measures will be received from all CSA contracted providers on an annual basis.

One Year Metric: With stakeholder input, the CSA staff will identify and prioritize what data and outcome measures providers should be responsible for collecting and providing to CSA.
