PWHD Continues Partnership with MAP Clinic (Bridge Health Clinic) in Manassas Park for COVID-19 Vaccine Distribution

The [Map Clinic \(MAP\)](#) (located in Manassas Park) serves the uninsured and refugee community within PWC, Manassas City and Manassas Park. Around January 20, the Prince William Health District (PWHD) began partnering with the MAP Clinic for COVID-19 vaccine distribution.

The health district provides a portion of its weekly allotment of vaccine to the MAP Clinic. The clinic works to vaccinate eligible community members, with an emphasis on equity.

On Friday, March 12, the MAP Clinic will hold a mass vaccination clinic. The health district is supplying 1,000 doses of Johnson & Johnson COVID-19 vaccine to the clinic.

On Monday, March 8, a mass vaccination clinic using the Johnson and Johnson vaccine was held on the other side of the County, at the old Gander Mountain building by Potomac Mills Mall.

If you are not registered for a **FREE COVID-19 vaccination**, go to [VACCINATE.VIRGINIA.GOV](https://vaccinate.virginia.gov). You need to sign up to get the free vaccine. All three COVID-19 vaccines, Moderna, Pfizer and Johnson & Johnson, are highly effective at preventing COVID-19 related hospitalizations and death.

NEW VACCINE DASHBOARD PWHHD - Available to the Public

The Emergency Operations Center has worked with the PWHHD to create a [PWHHD COVID-19 Vaccine Dashboard](#). This data is derived from publicly accessible data feeds that VDH has made available. The dashboard will update in real time; however, the data feeds are generally updated by noon daily.

Please note that this is data from the State, so it includes data from all providers (hospitals, PWHHD, medical practices, other community health providers, pharmacies).
