**March 9, 2021**

### PWHD Vaccination Progress

- **Running Total: As of March 8, 2021, 94,742 people have been vaccinated in the PWHD** by the local health district, hospitals, medical care providers, federal Long Term Care Facilities (LTCF) program and other community health care providers.
- **Last week: Residents in the PWHD received 7,042 first doses and 6,684-second doses.**

### NEW Publicly Accessible Dashboard

The Emergency Operations Center has worked with the PWHD to create a [PWHD COVID-19 Vaccine Dashboard](#). This data is derived from publicly accessible data feeds that VDH has made available. The dashboard will update in real-time; however, the daily update cadence for the data feeds is generally by noon daily.

Please note that this is data from the State. It includes data from all providers (hospitals, PWHD, medical practices, other community health providers, pharmacies).

### New PrepMod Scheduling System

Appointments are currently made through the PrepMod system. When it is your turn to schedule an appointment, you will receive an email, phone call, or text message from the PWHD Call Center. First, a representative will ask if you are

available for a particular day and willing to accept the vaccine administered at that clinic site. Second, you will receive a follow-up notification with a link to the scheduling process. After selecting an appointment slot, you have 15 minutes to complete the scheduling process. Please do not share this link with your family members or friends, as doing so will forfeit your allocated appointment. **If you are unable to use the internet to schedule your appointment, please call 703-872-7759, option 3, for assistance scheduling.**

### **PWHD COVID Vaccination Clinics** **No walk-ins, by appointment only.**
