**Project Lifesaver**  
 Project Lifesaver provides Sheriff’s deputies, police, fire/rescue, and other first responders with the training and technology to quickly locate and rescue individuals with cognitive disorders who are prone to the life-threatening behavior of wandering. The average recovery time for a wandering participant of the Project Lifesaver program is 30 minutes. The Sheriff’s Office is very proud of the fast turnaround as non-participant recovery averages nine hours.
