The Prince William Health District

What You Should Know:

Safer Ways to Celebrate Holidays

Holiday traditions are important for families and friends. There are several ways to enjoy holiday traditions and protect your health. Because many generations tend to gather to celebrate holidays, the best way to minimize COVID-19 risk and keep your family and friends safer is to follow the CDC recommended precautions whether you have been vaccinated or not.

How to Protect Yourself

Important Ways to Slow the Spread of COVID-19

- Get a [COVID-19 vaccine](https://www.cdc.gov/vaccines/​​️) as soon as you can. Find a vaccine.
- Wear a [mask](https://www.cdc.gov/vaccines/​​️) that covers your nose and mouth to help protect yourself and others.
- Stay 6 feet apart from others who don’t live with you.
- Avoid crowds and poorly ventilated indoor spaces.
- Test to prevent spread to others.
- Wash your hands often with soap and water. Use hand sanitizer if soap and water aren’t available.
- You might choose to wear a mask regardless of the level of transmission if a member of your household has a weakened immune system, is at increased risk for severe disease, or is unvaccinated.
- If you are gathering with a group of people from multiple households and potentially from different parts of the country, you could consider additional precautions (e.g., avoiding crowded indoor spaces before travel, taking a test) in advance of gathering to further reduce risk.
- Do NOT put a mask on children younger than 2 years old.
