The Prince William Health District What You Should Know:

FDA Is Warning Consumers About Unauthorized AG Covid-19 Home Test

The FDA issued a warning to the public to stop using **Empowered Diagnostics COVID-19 Tests**. Empowered Diagnostics is recalling the CovClear COVID-19 Rapid Antigen Test and the ImmunoPass COVID-19 Neutralizing Antibody Rapid Test.

These tests were distributed with labeling indicating they are authorized by the FDA, but neither test has been authorized, cleared, or approved by the FDA for distribution or use in the U.S. The FDA is concerned about the potentially higher risk of false results when using unauthorized tests, and has identified this issue as a class I recall, the most serious type of recall.

Community Testing Center (CTC) Walk-ins Now Accepted Test are available for persons 3 Months and Older

Appointments are encouraged at the new CTCs, but walk-ins are welcome. The CTC will offer free Polymerase Chain Reaction (PCR) testing for COVID-19. PCR test results are usually available within a few days, and are very effective in detecting an active COVID-19 infection, even if asymptomatic. The **CTC will administer PCR tests to individuals 3 months and older.**

To Make an appointment: <https://vase.vdh.virginia.gov/testingappointment>
The CTC is open Saturday through Thursday 9:00 am to 5:30 pm.

Located at 7 County Complex Court, Woodbridge, VA. 22192
Pfitzner Stadium/White Tent

1. **If you can't make it to your appointment or find another testing location, please cancel your appointment. . Walk-ins will be accepted while supplies last.**
2. If you go to the scheduling site online and can't find the CTC location, it could mean that all the appointments have been taken. Keep checking, expand your search to 100 miles and increase the number of days - the time span - you are searching.
3. **CTCs are closed on Fridays, and are Blackout days to allow our lab partners to get results back.** On Fridays at noon, appointments open up for **Saturday & Sunday appointments.**
4. **Can't find an appointment.** When there are no more appointments available you can not book for a later date, or more than 2 days out. Make sure your search uses 100 mile radius. **Walk-ins available as supplies last.**
5. **NOTE:** Some CTCs are currently managing delays of test results. **ANSWER:** The delays have been caused by a variety of issues that include incorrect contact information, inconclusive tests that required additional evaluation, an interface issue with the VASE+ reporting system and the weather. The VDH CTC team and its partners are currently working on the problem and have started contacting the individuals who have been impacted. **Please Do not call PWHD clinics or offices for results or issues. Call the VDH call center at 877-VAX-IN-VA (877) 829-4682 TTY users call 7-1-1.**
