Future Outlook

Future-Ready, Easily Accessible Technology – One of the Prince William Public Library (PWPL) strategic goals focuses on continuous technology improvement: both the technology that enables staff to perform their jobs, utilizing currently available and approved technology, and technology to offer services and technology access to customers with state of the industry resources. Technology impacting the public includes improved and expanded access to library resources, streamlined self-service circulation, and fee payment devices.

Expanded and Enhanced Mobile Library Services – PWPL continually seeks to remove barriers to access library services for the community. One way to remove barriers is to take library services into the community, such as to senior centers, organizations and schools serving children and families, and to neighborhoods without convenient access to a public library branch. Implementing bookmobile services as well as remote pick-up lockers or popular material vending equipment in areas underserved by library facilities can greatly improve access for PWC and Manassas City residents.

Library

Library Strategic Plan Implementation – The Library's Five-Year Strategic Plan began in January 2019 and continues in FY23. The elements addressed in the Library's Strategic Plan which will be the focus in FY23 are:

- **Future-Ready, Easily Accessible Technology:** PWPL will provide access to state-of-the-art technology (following industry best practices) to address both internal and external customer expectations.
- **Community Building:** PWPL will expand activities to connect communities and schools to library resources.
- **Approachable, Adaptive Experts:** PWPL will strengthen and broaden staff development and competencies to provide excellent user experiences.
- **Versatile, Inviting Spaces:** PWPL will enhance the mix of multi-functional, inviting spaces to create attractive, modern community destinations.
- **Community-Responsive Enrichment:** PWPL will provide programming that grows the user base and reflects our evolving community.
- **Lifelong Learning:** PWPL will reach more adult users by providing more lifelong learning and workforce development opportunities.
- **Physical and Virtual Media Collections:** PWPL will develop 24/7 access to robust collections in all available media that respond to public interest and demand.

General Overview

A. Redistribution of Internal Service Fund (ISF) Technology Budget – The County annually allocates all information technology (IT) costs to agencies through an ISF, using the approved cost basis for each technology activity. Technology activities include computer support (hardware replacement, software licenses, and helpdesk customer services), IT security, business systems support (public safety communications, financial systems, human services systems, etc.), geographic information system, web services, capital equipment replacement, messaging, cloud storage, network and infrastructure services, telecommunications, and radio. The cost basis is calculated through a formula derived from the Department of Information Technology's (DoIT) ISF fee schedule.

For FY23, ISF costs have been revised to align and more accurately reflect overall technology activities with current department specific technology services. Costs are adjusted to reflect agency technology usage more accurately, as tracked by DoIT billing systems using the updated methodology. In FY23, the PWPL bill increases by \$674,050. No technology service levels are changed, and there is no impact to the technology services individual agencies currently receive. For additional information on the countywide impact and methodology of redistributing technology charges, please see the Budget Highlights section of this document.

B. FTE Realignment – As an extension of the Public Services Program Consolidation in the FY22 Adopted Budget and the expenditure shifts in the PWPL budget, PWPL combined workload and performance measures. This process eliminated duplicate activities and workload measures, allowing multiple library branches to provide library resources as a single entity, reflecting the evolving community. To further support the evolving community, PWPL began the realignment of vacant positions in FY22 to shift resources and create positions that better served the department and the community. PWPL shifted 4.06 FTEs in the Public Services program to Administrative Services to support library branches, outreach, technology, and communications. As a result of COVID-19, Administrative Services experienced an increase in activity and workload in FY22, whereas Public Services reduced operations for a significant period. An additional 0.53 FTEs was shifted to Technology Services over the last fiscal year to combine vacancies and move a 20-hour position to a fulltime position to support growing technology needs.

Program Summary

Materials Services

The Materials Services program is responsible for the acquisition, processing, and deployment of print, audiovisual, electronic, and digital resources. This program develops and maintains the PWPL's catalog of holdings, which serves to provide citizens with access to the PWPL's resources, as well as providing an inventory and management system for all materials owned by the PWPL. This program provides interlibrary loan service, which enables residents to obtain books and other formats from public, academic, and special libraries throughout the country. The mailroom and courier service delivers materials requested by patrons to all 12 libraries 5 days a week.

Financial Services

The Financial Services program manages the financial, accounting, and budget development for the County Libraries in consultation with the Library Advisory Board. This program develops, manages, and implements the adopted budget and Capital Improvement Program projects, including performance measurement. In addition, the program monitors library revenues and state aid grants. The program is also responsible for monitoring and maintaining capital assets, non-capital assets, and internal control procedures. The program ensures the PWPL adheres to all County budget and financial policies and procedures.

Library

Administrative Services

The Administrative Services program provides management, direction, policy, and procedural formulation of all library services, as well as providing strategic planning for all County libraries. This program ensures compliance with County policies and procedures through the Library Director's Office, the Human Resources work unit, and the Facilities Maintenance work unit. The Director's Office also monitors and coordinates library data collection, annual submissions to the Library of Virginia, and requests for statistical information. The Office of Community Engagement work unit is responsible for PWPL marketing and development, PWPL printed and digital publications, and for the PWPL's Web and social media presence. The Office of Programming is responsible for the coordination of system-wide programming and special events. The Office of Outreach is responsible for providing library services outside of the branches. The PWPL's Community Partner, Literacy Volunteers of America-Prince William, is part of this program and provides free classes to enhance basic literacy, computer workplace and job skills, and provides English as a Second Language and other tutoring services to citizens.
