The Prince William Health District What You Should Know

Protect Your Health: Proper Masking Tips

Masks are most effective when worn consistently and correctly, and when combined with other layers of prevention, such as distancing, washing hands, covering coughs and sneezes, avoiding poorly ventilated spaces, and staying home when sick. While all masks provide some level of protection, properly fitted respirators provide the highest level of protection. [Find a Free N95 Respirator near you \[Español\]](#).

Prince William Health District Covid-19 Testing Services

Residents can schedule an appointment or find testing by visiting the scheduling [website](#), visit the PWHHD website <https://www.vdh.virginia.gov/prince-william/3293-2/> or call 1-877-VAX-IN-VA ((877-829-4682, TTY users call 7-1-1), Monday through Friday from 8 a.m. to 6 p.m. Assistance is available in English, Spanish, and more than 100 other languages.

[Curative](#) is still available in the PWHHD Jurisdictions of Manassas City and Manassas Park. Curative kiosks are also located in Alexandria, Arlington, and in the DC area. Visit the Virginia Department of Health [testing locator](#).

In addition you can find Vaccine availability by searching on [vaccines.gov](#) this website will show locations at CVS, Walgreens, and private provider availability.
