

**CONTINUING EDUCATION (CAT1)**

# **STETHOSCOPY COURSE AN EARS ON EXPERIENCE!**

## **BY BOB PAGE, STATE CE EDUCATOR**

How much did you pay for your stethoscope? How much training did you get on how to use it? This will fill the gap. In this session, participants are provided down to earth “for dummies” information on various types of stethoscopes and how to use them to get the most out of patient assessment. In this “Ear Opening” session, new and improved methods and techniques are presented and lung sounds are also played aloud and through stethoscope sounders so all participants can hear the sounds with their own stethoscopes rather than hear a “description” of the sound. **Students must bring their own stethoscopes to the class.**
