What is the Emergency Housing Assistance Program II?
The Prince William County Emergency Housing Assistance Program II (EHAP II) is federal funding provided from Community Development Block Grant Funds (CDBG-CV) through the CARES Act. It is offered to eligible households experiencing COVID-19-related financial housing hardships through subsistence payments.

What Are Subsistence Payments?
Subsistence Payments are defined as one-time or short-term assistance, made for no more than six consecutive months. Approved arrearages due must be paid first and counted as one of the six total payments. Payments owed prior to March 1, 2020, are not eligible.

All approved assistance payments will be paid directly to the mortgage company/service provider, landlord/owner, homeowner association agency and/or applicable utility providers.

Who is Eligible for EHAP II?
Households in Prince William County and the Cities of Manassas and Manassas Park who have arrearages, due to COVID-19, causing financial housing hardships which could potentially result in eviction, foreclosure and loss of utilities and risk homelessness may be eligible for EHAP II.

How is EHAP II Eligibility Determined?
EHAP eligibility is determined by the following:
• Households must currently have arrearages in mortgage, rent, HOA and/or utility payments. A household is considered individuals related by blood, marriage, adoption or unrelated residing in the same housing unit.
• The household’s income, assets and circumstances for all individuals, persons or families currently residing together must meet all program requirements.
• The household (including all household members) cannot have received any housing or utility assistance from any other source.
• All persons, including minors, currently residing together and other persons anticipated to occupy the housing unit for the EHAP II must be listed on the application.
• Applicants must provide a statement that current housing arrearages are due to COVID-19.

Eligibility for the EHAP II does not guarantee that assistance will be provided, as assistance is based on both eligibility and availability of funding.

How Do I Apply for EHAP II?
