

## Posting Permits

Issued by: *Eric M Mays, P.E.*

Building Official

Effective: September 11, 2003

Revised: October 10, 2003

### **Requirements:**

In accordance with the Virginia Uniform Statewide Building Code, all permits must be posted at each individual site/building throughout the duration of the construction. All permits that pertain to a particular project are to be posted in a grade level front window. As an alternative, a weather protected board, 4-6 feet in height may be mounted at the intersection of the projects driveway and the street, with the permits displayed there.

It is permissible to post copies of the permits and retain the original permits in the on-site field office.
