County Debt Service Expenditures (Existing and New)

Projected Principal and Interest Payments (Does Not Include Schools Debt Service)

Debt Management in Prince William County (PWC)

The County's debt service budget includes principal and interest payments on outstanding debt funded from multiple sources, including the general fund, fire levy, stormwater management fee, and other funding sources. Debt service payments of the school system and self-supporting revenue bonds are included in the respective budgets of the school system and the various enterprises.

Most debt service obligations for the County are structured with level principal payments, thereby reducing the debt service payments annually.

Bond Rating

PWC has been awarded AAA ratings from each of the three major credit rating agencies (Moody's, Fitch, and Standard & Poor's). PWC is one of the select few jurisdictions nationwide that have this prestigious designation.

The AAA bond rating serves as a statement of a locality's economic, financial, and managerial condition, and represents the business community's assessment of the investment quality of a local government. Highly rated bonds are more attractive and competitive in the market, thereby helping to lower the County's interest costs.

Debt Management Policy Statement

Proper debt management provides a locality and its citizens with fiscal advantages. The state does not impose a debt limitation on the County. However, it is essential to limit the debt of the County to a level that will not infringe on the County's ability to fund ongoing annual operating expenses. For this reason, a debt policy is included in the County's Principles of Sound Financial Management and has been adopted by the Board of County Supervisors (BOCS) to provide policy guidance to staff and ensure that no undue burden is placed on the County and its taxpayers. Specific language in the administrative policy provides the framework to limit the use of debt in PWC:

■ **Policy V – Debt Management:** 5.02 (d) Annual net tax supported debt service expenditures shall not exceed 10% of annual revenues, and (e) total bonded debt will not exceed 3% of the net assessed valuation of taxable real and personal property in the County.

General Overview

A. New Debt Service and Debt Financing in FY2025

- 1. **County Projects** Debt issuance is planned in FY25 for the Parks & Recreation bond referendum projects, Judicial Center Expansion, Public Safety Training Center Expansion, Fire & Rescue Station 27, Homeless Navigation Center East, Countywide Space, and potential land purchase for an Indoor Sports Facility.
- 2. School Projects Information about the Schools capital plan is available on their website: https://www.pwcs.edu.

B. Future Debt Issuances for Major Projects (FY2026-2030)

 County Projects – Debt issuances are planned for FY26 for the Mobility bond referendum projects, Juvenile Services Center, Judicial Center Expansion, and potential Indoor Sports Facility. Debt service payments are summarized below:

First year debt service payments (principal and interest) are generally due the year after debt issuance occurs. Debt service for the fire station will be supported by the fire levy. The mobility projects will be supported by restricted transportation revenue sources, such as Northern Virginia Transportation Authority (NVTA) 30% funding and grantor's tax funding. The general fund is anticipated to support the others.

2. School Projects – Information about the Schools capital plan is available on their website: http://www.pwcs.edu.

- **C.** Existing Debt The total FY25 debt service on financing issued prior to spring FY24, including the PWC Schools Capital Improvement Program, is \$146.7 million. The County's portion of existing debt service is \$35.0 million. The Schools' portion of existing debt service is \$111.7 million.
 - 1. Retired County Debt Debt service was retired in FY24 for Sudley Park Land Acquisition, Valley View Park, Veterans Park, Route 234 Bypass, Innovation Loop Road, Minnieville Road, Linton Hall (Nokesville) Fire Station, and Ridgefield Road.
 - 2. **Retired School Debt** Debt service was retired in FY24 for Ashton Elementary School, Battlefield High School, Blackburn Traditional School, Bristow Run Elementary School addition, Mary Williams Elementary School, Freedom High School, and Mid-County Transportation Center.
 - **3. Total Existing Debt Service Principal and Interest** The FY25 existing debt service consists of principal and interest payments. The estimated FY25 principal payment is \$105.1 million and the estimated FY25 interest payment is \$41.6 million. All principal and interest payments are made from the County's general fund. Revenue support for payments is transferred from fire levy, stormwater fees and recordation tax designated for transportation.
 - **4. Total Existing Debt Payments to Maturity** The total existing debt payments (principal and interest) through FY44 is projected to be \$257.0 million for County Debt and \$1,121.5 million for School Debt.

D. Additional Debt Service Funding Sources

1. **Recordation Tax Revenue** – Recordation tax revenue is generated when deeds are recorded in the County. The total estimated recordation tax revenue in FY25 is \$7.0 million; BOCS policy designates 74% (\$5.2 million) to support transportation. Some of that designated revenue helps support the debt service on transportation bond projects. The amount of recordation tax supporting transportation debt service in FY25 is \$3.9 million. Debt service on the following projects is supported by recordation tax until the debt is retired.

Recordation Tax Revenue		
Ducinet	FY25 Debt	Retire

Total Supporting Debt Service:	\$ 3,931,525	

^{*} Recordation tax partially supports the total debt service for this project.

2. **Build America Bonds (BAB) Federal Reimbursement** – The BAB program was included in the American Recovery and Reinvestment Act (ARRA) of 2009 and was created to stimulate the national economy out of economic recession. The BAB program was intended to help state and local agencies regain access to bond markets after the financial collapse made it difficult to borrow and construct infrastructure improvements. It allowed municipalities to issue taxable bonds with the federal government subsidizing 35% of the interest payments. However, the federal reimbursement amount is lower than originally anticipated after a reduction in reimbursement due to the federal sequester. The current sequestration reduction rate is 5.7%.

During CY2010, the County issued debt through the BAB program to construct schools (as part of the Virginia Public School Authority). In FY25, the County will be reimbursed \$468,003 by the federal government in the County's debt service budget. The total amount will be transferred to the County's School division, which is responsible for the annual debt service payments.

3. Qualified School Construction Bonds (QSCB) Federal Reimbursement – Similar to the aforementioned BAB program, the QSCB program was also created by ARRA. The program provides tax credits, in lieu of interest, to lenders who issue bonds to eligible school districts. The federal government planned to provide 100% of the interest payments through a reimbursement to the locality. Therefore, the locality would have only been responsible for repayment of the bond principal. However, the federal reimbursement amount is lower than originally anticipated after a reduction in reimbursement due to the federal sequester. The current sequestration reduction rate is 5.7%. QSCB bond proceeds may be used to finance new school construction or rehabilitate and repair public school facilities.

The County issued debt as part of the QSCB program during CY2010. In FY25, the County will be reimbursed \$484,960 by the federal government in the County's debt service budget. The reimbursement will be transferred to the County's School division, which is responsible for the annual debt service payments.
