# **Land Development Application Review and Inspection Fees**

This section identifies fees charged for review and permitting in connection with applications for land development activities in Prince William County, Virginia.

Applicants should use this schedule to identify what fees are required. A review fee calculation form or a land permit calculation form must accompany each plan submission application, as identified in the Administrative Procedures Manual, to identify how the fee amount was derived. The fee calculation forms are available at the Department of Development Services at (703) 792-6830 and on the Department of Development Services web page at www.pwcva.gov/LDDDocs.

The exact amount should be used when calculating payments for land development review(s) and permit fees when submitted as part of the application process. If there is a miscalculation of fees by less than 20 percent and the plan meets quality control screening standards, the Department of Development Services will accept the plans and adjust the amount by the final submission (signature submission).

Any fees calculated on an area basis must be figured to a minimum of two decimal places. For example, if the parcel area is 8.49956 ac, do not use 8.4 ac or 8.5 ac, 8.50 ac should be used to calculate the fees.

Payment can be made using cash, checks, or credit/debit cards for all land development review(s) and permit fees. However, credit card payments for bonds and/or escrows (including lot escrows) will not be accepted (cash or check only). Checks should be made payable to 'Director of Finance, Prince William County'. Only the following credit/debit cards will be accepted for land development fees: Mastercard, Visa, and Discover. All credit/debit card transactions may be processed in person. We do accept credit/debit card payments over the phone or online. Additionally, payments can be made online by echeck.

#### **PART I**

#### NOTES AND ADMINISTRATIVE STANDARDS

This section is provided for clarification of the terms used in subsequent parts.

**Important Terminology** - The following terms and their definitions are to be applied when using this fee schedule.

- 1. Application/Base Fee This is the fee payment that is required to be paid in full upon the initial submission of any study or plan that is subject to Department of Development Services' review or administration. In either case, the specific fee will state whether this amount is a minimum amount or is in addition to a supplemental fee.
- 2. Supplemental Fee This fee is to be provided upon initial submission of any applicable plan. The amount due upon first submission of any plan is equal to either the applicable project variable multiplied by the item charge, or the percentage of total bond (specified in the fee schedule) multiplied by the total performance bond amount found on the plan cover sheet. Plans will not be accepted for initial submission without a completed unit price list and bond estimate, and the resultant supplemental fee calculation. Supplemental fees are calculated using costs that are normally bondable even when some or all bonds shown will not be required to be posted (as in plans for public uses and facilities).
- 3. **Fee Reconciliation** As part of the pre-signature summary letter, an analysis will be performed by the Department of Development Services to determine if a change in total performance bond occurred during plan review from the figure established as part of the first submission.
  - If there was an increase in total performance bond during the plan review, or if the plan file indicates outstanding fees due, the Department of Development Services shall include the total balance due in the signature summary letter. That amount must be included with the signature submission, or the plan will not be accepted for signature.
- 4. Unit Price List (UPL) Bond This amount is the total construction cost (total bond amount less the administrative and inflation cost estimate) located on the PWC standard cover sheet.
- 5. Total Bond This amount is the total performance bond amount, equal to the total construction cost (UPL bond) plus the administrative and inflation costs, as shown on the bond estimate located on the plan cover sheet. This includes those plans for public uses and facilities, Dale Service Corporation, and Virginia American Water. (For any project involving either Dale Service Corporation or Virginia American Water, the supplemental fee and total performance bond are to be itemized between company and county bonded items.)
  - **Note**: This amount must be calculated according to this schedule and provided on the cover sheet, at the initial (i.e., first) submission of any relevant subdivision/site plan, revision, or other plan type requiring a supplemental fee.
- **6. Single Family Detached (SFD) Plan Submissions** Any residential subdivision plan involving detached residential dwelling units with any design or style characteristics
- 7. Townhouse/Multifamily (TH/MF) Plan Submission Any residential subdivision or site plan involving attached residential dwelling units with any design or style characteristics. This includes but is not limited to duplexes, multiplexes, fee simple townhouses, condominiums (if attached), garden or other apartments, or high-rise residential development.
- **8. Non Residential Subdivision Plan** Any non residential subdivision plan involving creating parcels/lots for non residential use.

Effective July 1, 2024 Page 3 of 25

- 9. Public Improvement (PI) (Infrastructure) Plan Submissions If an infrastructure plan (road, storm sewer, stormwater management, utilities, etc.) is proposed to a residential or nonresidential project, but is not submitted in conjunction with the site and subdivision plans for the project being served, the PI fee category identified in the fee schedule will be used. In cases where the infrastructure plan is submitted as part of a site or subdivision plan, the review fee appropriate for the site or subdivision plan will be used. Major road plans serving more than one development (such as those identified in the Comprehensive Plan) will be treated as public improvement plans.
- **10.** County Public Improvement Projects The Director of Development Services has the discretion to determine which fee(s) are charged for County Public Improvement Projects.
- 11. **Refunds** The Land Development Division does not offer refunds once formal acceptance of a first submission has occurred.
- 12. Revision Fee Any plan revision that proposes an increase and/or change of less than 25 percent of the original plan, disturbed area, building area, or number of units/lots shall use the appropriate site plan or subdivision revision fee category. If the plan's revision proposes more than a 25 percent increase or change to the original plan, the appropriate final site or subdivision fee category shall be used. (The file number designation shall have no relevance to the fee category used.)
- 13. Targeted Industry Plan Review and Development Permit Fees The proposed development must be appropriately classified prior to plan submission in order to qualify for targeted industry status. Determination will be made in writing by the director of Economic Development upon written request of the applicant. All such approved verifications must accompany the initial plan submission.
- 14. Extensions and Waivers for Final Site/Subdivision Plan Resubmission In the event a plan resubmission is not received by the deadline, an administrative extension shall be requested in accordance with Part II, #9 of the Fee Schedule. Should any project remain dormant for a period of time exceeding 60 days without an extension request, individual administrative extensions and/or 6-month waiver requests shall be used to bring the project current prior to resubmission.

# Land Use Applications - Zoning, Rezoning and Special Use Permit Fees

This section identifies fees charged in connection with the review and processing of applications for rezoning, special use permits, and other land use applications reviewed by the Planning Office along with zoning permit fees reviewed by the Department of Development Services.

Applicants should use this schedule to identify fees associated with their respective applications. The fee schedules for rezoning and special use permit applications may also be found as part of the rezoning and special use application checklists.

The exact amount should be used when calculating payments for review fees when submitted as part of the application process. If there is a miscalculation of fees by less than 20 percent and the plan meets quality control screening standards, the Planning Office will accept the plans and adjust the amount by the final submission.

Any fees calculated on an area basis must be figured to a minimum of two decimal places. For example, if the parcel area is 8.49956 ac, use 8.50 ac to calculate the fees.

Payment can be made using cash, checks, or credit/debit cards for all Zoning Administration reviews through the Department of Development Services. The following credit/debit cards will be accepted: Mastercard, Visa, and Discover. For rezonings and special use permits, only cash and check payments will be accepted. Checks should be made payable to 'Director of Finance, Prince William County,' and be submitted as part of the application process.

Checks for land use review fees must be made payable to the 'Director of Finance, Prince William County', and submitted as part of the application process.

Refunds: A refund of 25% of the application fee shall be returned to the applicant if the application requiring a public hearing is withdrawn prior to the submission of a newspaper advertisement announcing the Planning Commission public hearing. Cases withdrawn after the advertisement will not have any funds reimbursed.

#### **GENERAL**

This fee schedule includes:

- 2% Fee Levy as authorized by Section 107.2 of the USBC to support the activities of the Prince William County Code Academy.
- 14% technology surcharge (percentage subject to change annually based on approved budget)
- 10% indirect costs surcharge (percentage subject to change annually based on approved budget)

These surcharges are calculated against the base fee to arrive at the total.

#### **DEFINITIONS**

- 1. **Tenant Layout** Construction permits issued for the creation of a finished tenant space. This includes the installation of wall and floor materials and dropped ceilings, and may include partitions. Construction plans include structural detail and architectural features, plus electrical, plumbing and mechanical installations. Certificates of Use and Occupancy are issued upon completion of Tenant Layout work.
- 2. **Alteration/Repair** For the purpose of new nonresidential construction, an alteration/repair building permit is issued to the tenant for additional work to satisfy special requirements of the tenant. Additional work may include installation of partitions or systems furniture.
- 3. **Common Area, Common Area Permit** A common area of a building with multiple units and/or tenants; typically the footings, foundations, exterior bearing walls, interior walkways, floor-ceiling assemblies for multiple story buildings, and roof areas. This permit is used with Tenant Layout building permits in Use Groups B and M projects and with individual building permits for new residential units in R-2/R-3 projects.
- 4. **Gross Floor Area** The floor area within the inside perimeter of the exterior walls of the building under consideration, exclusive of vent shafts and courts, without deduction for corridors, stairways, ramps, closets, the thickness of interior walls, columns or other features. The floor area of a building, or portion thereof, not provided with surrounding exterior walls shall be the usable area under the horizontal projection of the roof or floor above. The gross floor area shall not include shafts with no openings or interior courts.
- 5. **Group** The classification of a building or structure based on the purpose for which it is used. See Virginia Construction Code and the International Building Code for various groups.
- 6. **R-1, R-2 and R-3 (4 Story/2 Dwelling Units) Groups** Hotels, motels, boardinghouses, and dwellings such as apartment buildings. Condominiums, each with its own entrance, will fall under this category for the purpose of fee calculation.
- 7. **R-3**, **R-4** and **R-5** Groups Townhouses, semi-detached, and detached single family dwelling units. Condominiums, each with its own entrance, do not fall under this category for the purpose of fee calculation.
- 8. **Shell Permit** Partial building permit for a work that will not result in the issuance of a Certificate of Occupancy. Please refer to the Building Development Policy and Procedure for definitions and the permitting process.
- 9. Value The aggregate cost of labor, material, overhead and profit to complete the entire job. The contract cost for the entire job or portions thereof which fall under the Uniform Statewide Building Code. Value is used for calculation of Alteration and Repair projects.
- 10. **Hazard**, (Light, Ordinary and Extra) for fire suppression See NFPA 13 and Virginia Construction Code Chapter 3 for definition.

Effective July 1, 2024 Page 2 of 24

#### ADMINISTRATION AND STANDARDS

A permit must be issued before any of the following actions, which are subject to the Uniform Statewide Building Code (USBC), may be commenced, and applies to all structures, including the maintenance of existing structures:

construction

repair

alteration

addition

• removal/demolition

• footing and foundation

## **Permit Application**

Application for a permit must be made to the Building Official and a permit must be obtained prior to the commencement of any of the following activities.

- 1. **Construction or demolition of a building or structure**, including the installation or altering of any equipment regulated by the USBC.
- 2. **For change of occupancy**, application for a permit shall be made when a new certificate of occupancy is required by the VEBC.
- 3. **Movement of a lot line that increases** the hazard to or decreases the level of safety of an existing building or structure in comparison to the building code under which such building or structure was constructed.
- 4. **Removal or disturbing of any asbestos** containing materials during the construction or demolition of a building or structure, including additions.
- 5. Construction of all retaining walls supporting 3 feet or more of unbalanced fill or supporting any surcharge from a structure above. Such work requires plan approval and a building permit. All plans shall be certified and signed by a Professional Engineer, except for retaining wall systems supporting 4 feet or less of unbalanced fill without any surcharge other than ordinary unbalanced fill. A retaining wall system may be composed of several tiers of individual retaining walls.

The Building Official may authorize work to commence pending the receipt of an application or the issuance of a permit.

#### **Emergency Construction**

Applications for emergency construction, alterations, or equipment replacement, must be submitted by the end of the first working day following the day such work commences.

#### **Exemptions**

The following are exempt from this code.

- 1. Equipment and wiring used for providing utility, communications, information, cable television, broadcast or radio service in accordance with the following conditions:
  - 1.1 The equipment and wiring are located on either rights-of-way or property for which the service provider has rights of occupancy and entry.
  - 1.2 Buildings housing exempt equipment and wiring shall be subject to the USBC.
  - 1.3 The equipment and wiring exempted by this section shall not create an unsafe condition prohibited by the USBC.
- 2. Support structures owned or controlled by a provider of publicly regulated utility services or its affiliates for the transmission and distribution of electric service in accordance with all of the following conditions:
  - 2.1 The support structures are located on either rights-of-way or property for which the service provider has rights of occupancy and entry.

Effective July 1, 2024 Page 3 of 24

- 2.2 The support structures exempted by this section shall not create an unsafe condition prohibited by the USBC.
- 3. **Direct burial poles used to support equipment or wiring** providing communications, information, or cable television services. The poles exempted by this section shall not create an unsafe condition prohibited by the USBC.
- 4. **Electrical equipment, transmission equipment, and related wiring** used for wireless transmission of radio, broadcast, telecommunications, or information service in accordance with all of the following conditions:
  - 4.1 Buildings housing exempt equipment and wiring and structures supporting exempt equipment and wiring shall be subject to the USBC.
  - 4.2 The equipment and wiring exempted by this section shall not create an unsafe condition prohibited by the USBC.
- 5. **Manufacturing, processing, and product handling machines and equipment** that do not produce or process hazardous materials regulated by this code, including those portions of the conveyor systems used exclusively for the transport of associated materials or products, and all of the following service equipment:
  - 5.1 Electrical equipment connected after the last disconnecting means.
  - 5.2 Plumbing piping and equipment connected after the last shutoff valve or backflow device and before the equipment drain trap.
  - 5.3 Gas piping and equipment connected after the outlet shutoff valve.

Manufacturing and processing machines that produce or process hazardous materials regulated by this code are only required to comply with the code provisions regulating the hazardous materials.

- 6. Parking lots and sidewalks which are not part of an accessible route.
- 7. **Non-Mechanized playground** or recreational equipment such as swing sets, sliding boards, climbing bars, jungle gyms, skateboard ramps, and similar equipment where no admission fee is charged for its use or for admittance to areas where the equipment is located.
- 8. **Industrialized buildings** subject to the Virginia Industrialized Building Safety Regulations (13VAC5-91) and manufactured homes subject to the Virginia Manufactured Home Safety Regulations (13VAC5-95); except as provided for in Section 427 and in the case of demolition of such industrialized buildings or manufactured homes.
- 9. **Farm buildings and structures**, except for a building or a portion of a building located on a farm that is operated as a restaurant as defined in Section 35.1-1 of the Code of Virginia and licensed as such by the Virginia Board of Health pursuant to Chapter 2 (Section 35.1-11 et. seq.) of Title 35.1 of the Code of Virginia. However, farm buildings and structures lying within a flood plain or in a mudslide-prone area shall be subject to flood-proofing regulations or mudslide regulations, as applicable.
- 10. **Federally owned buildings and structures unless** Federal Law specifically requires a permit from the locality. Underground storage tank installations, modifications and removal shall comply with this code and in accordance with Federal Law.
- 11. Off-site manufactured intermodal freight containers, moving containers, and storage containers placed on site temporarily or permanently for use as a storage container.

#### 12. Automotive lifts.

#### **Exceptions from application for permit:**

1. **Patios** - Building permit is not required for patios which are not designed to support a future structure and that are not suspended concrete slabs.

Effective July 1, 2024 Page 4 of 24

- 2. **Decks** Building permit is not required for decks where all portions of the top of the floor are within 16.5 inches of finished grades.
- 3. **Installation of wiring and equipment that** (i) operates at less than 50 volts; (ii) is for broadband communications systems; (iii) is exempt under Section 102.3(1) or 102.3(4); or (iv) is for monitoring or automation systems in dwelling units, except when any such installations are located in a plenum, penetrate fire-rated or smoke-protected construction, or are a component of any of the following: fire alarm system; fire detection system; fire suppression system; smoke control system; fire protection supervisory system; elevator fire safety control system; access or egress control system or delayed egress locking or latching system; fire damper; or door control system.
- 4. One story detached accessory structures used as tool and storage sheds, playhouses or similar uses, provided the floor area does not exceed 256 square feet (23.78 m²) and the structures are not classified as a Group F-1 or H occupancy.
- 5. **Detached pre-fabricated buildings** housing the equipment of a publicly regulated utility service, provided the floor area does not exceed 150 square feet (14 m<sup>2</sup>).
- 6. **Tents or air-supported structures, or both, that cover an area of 900** square feet (84 m<sup>2</sup>) or less, including within that area all connecting areas or spaces with a common means of egress or entrance, provided such tents or structures have an occupant load of 50 or less persons.
- 7. Fences of any height unless required for pedestrian safety as provided for by Section 3306, or used for the barrier for a swimming pool. (NOTE: The approval of the Zoning Office is required for these buildings for verification of compliance with appropriate setback, side yard and rear yard requirements of the Zoning Ordinance of Prince William County. Any electrical installation will require permits and inspections.)
- 8. **Concrete or masonry walls**, provided such walls do not exceed six feet in height above the finished grade. Ornamental column caps shall not be considered to contribute to the height of the wall and shall be permitted to extend above the six feet height measurement.
- 9. **Retaining walls supporting less than** three feet of unbalanced fill. This exemption shall not apply to any wall impounding Class I, II or III-A liquids or supporting a surcharge other than ordinary unbalanced fill.
- 10. Swimming pools that have a surface area not greater than 150 square feet (13.95 m<sup>2</sup>), do not exceed 5,000 gallons (19 000 L) and are less than 24 inches (610 mm) deep.
- 11. Flagpoles 30 feet (9144 mm) or less in height.
- 12. **Temporary ramps** serving dwelling units in Group R-3 and R-5 occupancies where the height of the entrance served by the ramp is no more than 30 inches (762 mm) above grade.
- 13. **Construction work** deemed by the building official to be minor and ordinary and which does not adversely affect public health or general safety.
- 14. **Ordinary repairs not including** (i) the cutting away of any wall, partition or portion thereof; (ii) the removal or cutting of any structural beam or load bearing support; (iii) the removal or change of any required means of egress; (iv) the rearrangement of parts of a structure affecting the egress requirements; (v) the addition to, alteration of, replacement of or relocation of any standpipe, water supply, sewer, drainage, drain leader, gas or oil, soil, waste, vent or similar piping, electric wiring or mechanical work; or (vi) any other work affecting public health or general safety. However, ordinary repairs shall include, but are not limited to, the following:
  - 14.1 Replacement of windows and doors with windows and doors of similar operation and opening dimensions that do not require changes to the existing framed opening and that are not required to be fire rated in Group R-2 where serving a single dwelling unit and in Groups R-3, R-4 and R-5.

Effective July 1, 2024 Page 5 of 24

- 14.2 Replacement of plumbing fixtures and well pumps in all groups without alteration of the water supply and distribution systems, sanitary drainage systems or vent systems.
- 14.3 Replacement of general use snap switches, dimmer and control switches, 125 volt-15 or 20 ampere receptacles, luminaries (lighting fixtures) and existing ceiling (paddle) fans in Group R-2 where serving a single dwelling unit and in Groups R-3, R-4 and R-5.
- 14.4 Replacement of mechanical appliances provided such equipment is not fueled by gas or oil in Group R-2 where serving a single-family dwelling and in Groups R-3, R-4 and R-5.
- 14.5 Replacement of an unlimited amount of roof covering or siding in Groups R-3, R-4 or R-5 provided the building or structure is not in an area where the design (3 second gust) wind speed is greater than 100 miles per hour (160 km/hr) and replacement of 100 square feet (9.29 m²) or less of roof covering in all groups and all wind zones.
- 14.6 Replacement of 256 square feet (23.78M2) or less of roof decking in Groups R-3, R-4 or R-5 unless the decking to be replaced was required at the time of original construction to be fire-retardant-treated or protected in some other way to form a fire-rated wall termination.
- 14.7 Installation or replacement of floor finishes in all occupancies.
- 14.8 Replacement of Class C interior wall or ceiling finishes installed in Groups A, E and I and replacement of all classes of interior wall or ceiling finishes in other groups.
- 14.9 Installation of replacement cabinetry or trim.
- 14.10 Application of paint or wallpaper.
- 14.11 Other repair work deemed by the building official to be minor and ordinary which does not adversely affect public health or general safety.
- 15. Signs under the conditions in section H101.2 of Appendix H of the Virginia Construction Code.
- 16. Replacement of above-ground existing LP-gas containers of the same capacity in the same location and associated regulators when installed by the serving gas supplier.
- 17. **Crypts, mausoleums, and columbaria structures** not exceeding 1500 square feet (139.35 m2) in area if the building or structure is not for occupancy and used solely for the interment of human or animal remains and is not subject to special inspections.
- 18. **Billboard safety upgrades** to add or replace steel catwalks, steel ladders, or steel safety cable.

**Exception:** Application for a permit may be required by the Building Official for the installation of replacement siding, roofing and windows in buildings within a historic district designated by a locality pursuant to Section 15.2-2306 of the Code of Virginia.

### **Fee Collected for Other Agencies**

Building Development collects the following fees for Land Development: Lot Grading Inspection and Re-Inspection Fee, Lot Escrow, Site Modification Deposit and Site Modification Fee. Please refer to the <u>Land Development Fees webpage</u> for more information.

Building Development collects the following fees for the Fire Marshal's Office: Inspection Fee and After Hours Inspection Fee. Please refer to the <u>Fire Marshal Fee Schedule</u> for these fees.

Effective July 1, 2024 Page 6 of 24

### **Methods of Payment**

Building Development accepts in person payments of Cash, Check or Cards bearing the Visa, Mastercard and Discover name and logo for development related fees. Proffers, Bonds and Escrow payments cannot be paid with Cards.

Based on the Board of County Supervisors adoption of revisions to the Building Development Fee Schedule, the Building Development fees are subject to change. The fee amount charged will be based on the approved Building Development Fee Schedule in effect on the date of permit issuance.

#### Refunds

1. All requests for refunds must be made in writing to the Building Official. An administrative fee for processing the refund request will be deducted from the refund.
