Any amount exceeding the 5% cap will be the responsibility of the locality. This 5% limitation applies to both in-state and out-of-state private day base daily tuition rates. The CPMT discussed concerns related to providers who may refuse to accept only a 5% rate increase. CSA staff will identify providers whose proposed rates exceed the 5% cap and provide data on the number of youth currently placed with each of those providers to assess the potential fiscal impact on the locality.

Re: CSA Reimbursement for Private Day Special Education – FY2026

Date: April 8, 2025

Please Note: The information contained in the Administrative Memo is contingent upon the final approval of the Appropriation Act by the Governor, which is expected to occur no later than May 2, 2025.

Pursuant to the recently signed Appropriation Act (state budget) Item 268.L., the Office of Children's Services will institute the following:

L. Notwithstanding any other provision of law, for services provided on or after July 1, 2025, the rate of reimbursement to localities for private day educational services shall not increase more than 5.0 percent over the rates for such services provided the previous year.

This Administrative Memo is intended to inform you of the implementation process for this requirement.

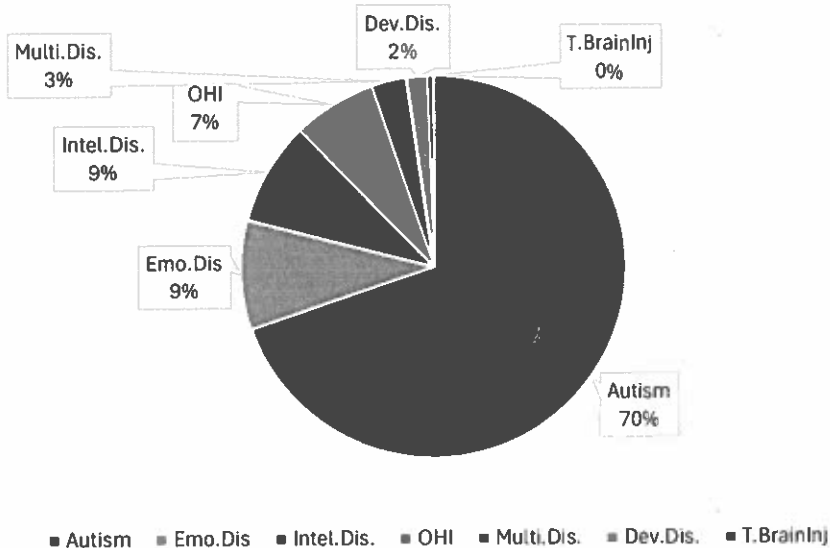

- The Office of Children's Services (OCS) has developed a "base year" rate sheet for all licensed Virginia and out-of-state private day schools that provided services to Virginia students in fiscal year 2025. Each school may have one or more rates to reflect different programs or tiers within the program. This base year "rate sheet" was developed using data from CSA LEDRS system submissions and the rates reported in the CSA Service Fee Directory. That base year rate sheet is found as an Attachment to this Administrative Memo.
- The attachment also includes a calculation of the maximum daily tuition that the CSA state pool will reimburse a locality for each school, program, and tier based on the five percent limit. Local CSA programs are directed to limit the requested reimbursement to the maximum daily tuition rate indicated for fiscal year 2026.

- The five percent limit in state reimbursement increases will apply to both in-state and out-of-state private day programs (e.g., programs in Maryland).
- These above limitations apply only to the base daily tuition rate for students in private day schools, coded as Service Name 54 (Private Day School) or 72 (Private Day School Out-of-State) in the CSA LEDRS System. It will not be applied to additional and separate charges for educational services on a student's IEP such as, but not limited to, speech, language, or occupational therapy as called for by the student's IEP and coded as Service Name 36 (Special Education Related Services). Such additional charges should be reported separately from the base daily tuition rate and coded appropriately.
- If there are separate rates for extended school year (ESY) programs that are not listed on the attached document, please use your currently negotiated (2024-2025 school year) rate for ESY as the base and limit increases to five percent, as with the base daily rate for the "regular" school year.
- The above actions will not apply to the daily educational charge for students in psychiatric residential treatment facilities (PRTFs).
- OCS will regularly review LEDRS reimbursement submissions to identify any rates submitted above the maximum allowable amount and contact the locality to resolve these cases and potentially recover reimbursements above the permissible limits.

I appreciate your cooperation in assisting OCS with ensuring compliance with the directive in the Appropriation Act.

Please feel free to contact me with any questions or if you believe there are inaccuracies in the base rates provided.
