# Route 1 (Richmond Highway) From Route 234 (Dumfries road) to Neabsco Road/ Cardinal Drive Corridor Study Public Information Meeting

Wednesday, September 24, 2025 6:00 p.m. to 8:00 p.m.

Presentation at 6:30 p.m.

#### **Tonight's Meeting**

#### PRINCE WILLIAM COUNTY

#### Agenda

- Team Introductions
- Opening Statement
- Richmond Highway Corridor Improvement Study
  - Study Work Group
  - Study Overview
  - Study Scope of Work
- Next Steps
- Q&A

### PRINCE WILLIAM Transportation

The Route 1 (Richmond Highway) Traffic Study is evaluating traffic conditions along Route 1 between Neabsco Road / Cardinal Drive and Route 234. This study will identify improvements that can be advanced for funding, including widening Route 1 from 4 to 6 lanes. Improvements will be programmed in the VDOT Six-Year Improvement Program (SYIP).

This study will analyze existing conditions, and future travel needs to identify the following types of improvements:

- Traffic operations
- Safety (vehicles, pedestrians, and bicycles)
- Access management
- Multimodal

**Schedule: May 2025 – June 2026** 

#### **Study Area - Existing Conditions**

## Route 1 (Richmond Highway) from Route 234 (Dumfries Road) to Neabsco Road / Cardinal Drive

- Length 2.7 miles
- 4 lane divided principal arterial
- Speed Limit:
  - 35 MPH From Route 234 (Dumfries Road) to Wayside Drive
  - 40 MPH From Wayside Drive to American Eagle Boulevard/ Celestial Drive
  - 45 MPH From American Eagle Boulevard/ Celestial Drive to Cardinal Drive / Neabsco Road

#### **Study Area – Traffic Counts**

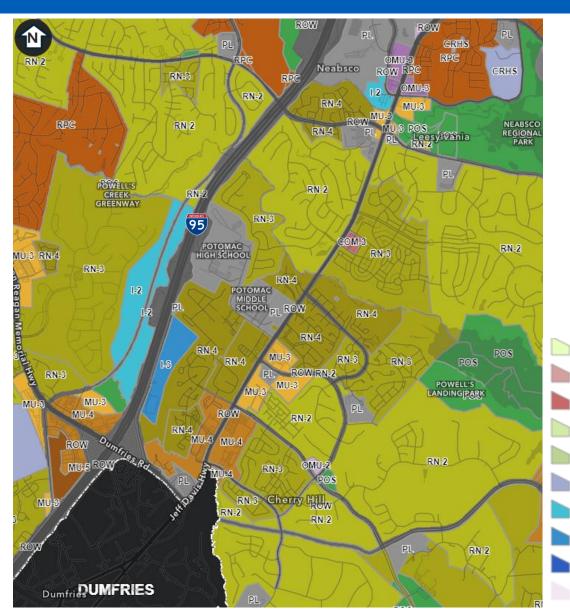

#### **Traffic Counts (2025)**

- Daily volume varies between 80,000 100,00 vehicles per day (VPD)
  - High for a 4-lane corridor
- 11 study intersections
  - 10 signalized
  - 1 unsignalized

#### **Study Area – Existing Land Use**

Right-of-Way (ROW)

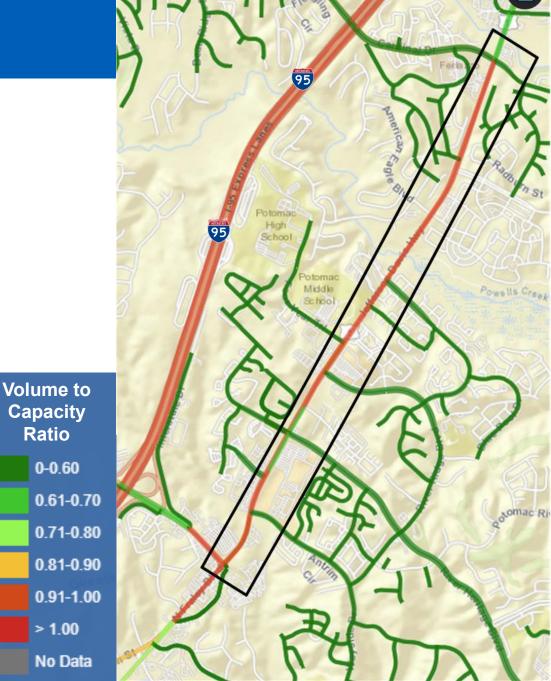

- Mainly residential in the corridor
- The southern end includes mixed use (commercial as well as residential)
- Includes coordination with Planning Office on future Fettle Park Small Area Plan
- Agriculture and Forestry (AF) Mixed Use - Hamlet (MU-1) Open Water (OW) Commercial - Neighborhood (COM-2) Mixed Use - Village (MU-2) Parks and Open Space (POS) Commercial - Community (COM-3) Mixed Use - Neighborhood (MU-3) Public Land (PL) Conservation Residential (CRes-1B) Mixed Use - Community (MU-4) Residential Neighborhood (RN-1) Conservation Residential (CRes-1C) Mixed Use - Town Center (MU-5) Residential Neighborhood (RN-2) County Registered Historic Site (CRHS) Mixed Use - Urban Town Center (MU-6) Residential Neighborhood (RN-3) Industrial - Light (I-2) Occoguan Reservoir Protection Area (ORPA) Residential Neighborhood (RN-4) Industrial - Tech/Flex (I-3) Office Mixed Use - Low-Rise (OMU-2) Residential Neighborhood (RN-5) Industrial - Heavy (I-4) Office Mixed Use - Mid-Rise (OMU-3) Residential Planned Community (RPC) Marine Corps Base Quantico (MCBQ)

Office Mixed Use - High-Rise (OMU-4)

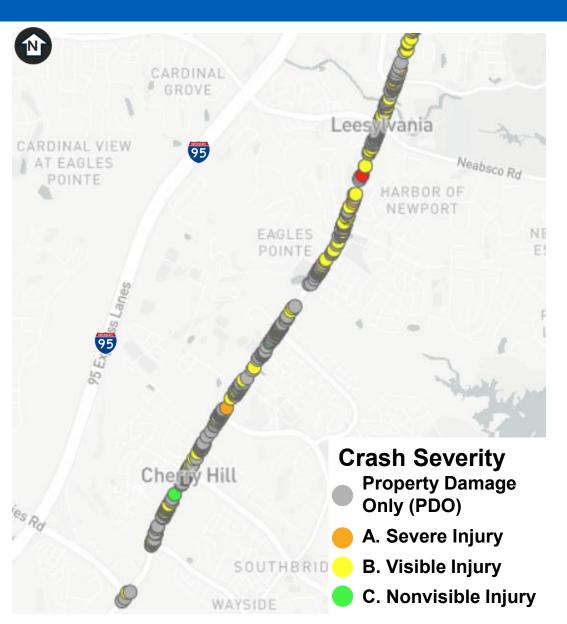

#### **Study Area - Congestion**

- Review existing traffic conditions to assess congestion in the corridor
  - Volume to Capacity Ratio
    - Volume = how many vehicles travel on the roadway
    - Capacity = how many vehicles the roadway can handle comfortably
  - Analysis results show that in the study area Route 1 is mainly orangered to dark red which means it is reaching capacity or exceeding capacity

#### **Study Area - Safety (Crash Summary)**

#### **Crash History – 2020-2025**

Property Damage - 315

Injury Crash - 170

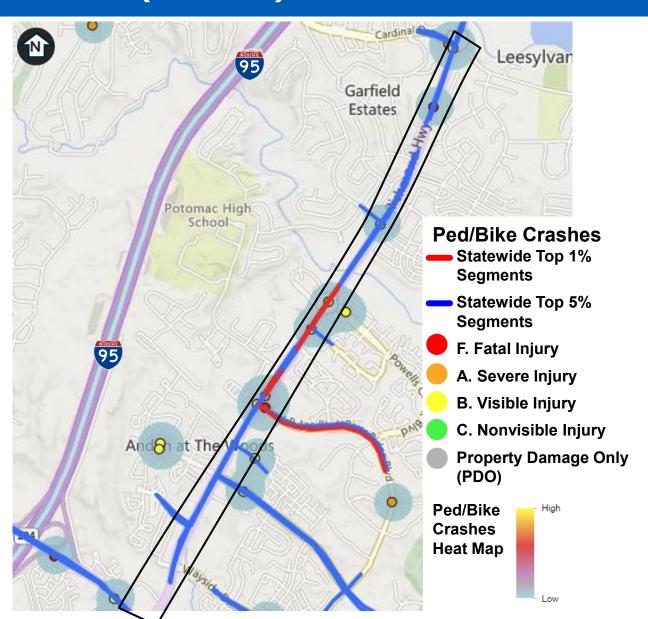

Pedestrian Injury Crash - 12

Pedestrian Fatal Crash - 1

Fatal Injury - 2

## Study Area - Pedestrian and Bicycle Safety Action Plan (PBSAP)

- Part of VDOT Vulnerable Road User Safety Assessment (VRUSA), 2024-2026, a supplement to Virginia Strategic Highway Safety Plan (SHSP)
  - Uses recent Census, Community Features, Roadway, Traffic and Crash Data
  - Corridor includes a road segment ranked in the top 1% statewide for safety concerns
  - Corridor includes several segments in the top 5% statewide for safety concerns

#### **Questions, Comments, Concerns**

Staff from Prince William County Department of Transportation and the Design Team are available to discuss the project and answer questions.

Written suggestions can be submitted to Prince William County's Project Manager: Ms. Sherry Djouharian

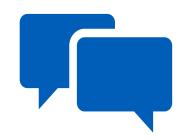

Email: SDjouharian@pwcgov.org

(Reference: Route 1 Traffic Study PIM

Feedback)

Mail: Prince William County DOT Attn: Ms. Sherry Djouharian 5 County Complex Court, Suite 290 Prince William County, VA 22192

We kindly request you to post your comments by October 3, 2025.
