**New Horizons Probation Services** provide a range of therapeutic services to youth that are on site at the Juvenile Detention Center and/or on probation to address issues that are related to mental health, substance abuse and co-occurring disorders. Services include:

- mental health and substance abuse evaluations, including court-ordered evaluations
- individual, family and group therapy
- crisis intervention
- case management to link clients with community resources
- intensive care coordination to assess needs, identify and link to resources, and coordinate services
- collaboration and consultation with JDC staff, parents, probation officers, social workers, school staff, professionals and community resources
- skill building to improve problem solving skills, teamwork and positive communication
- referrals to psychiatric hospitals, residential treatment programs and other services
- discharge planning from psychiatric hospitalizations
