Report of Independent Auditor

To the Stockholders and Board of Directors
Prince William Self-Insurance Group Casualty Pool
Woodbridge, Virginia

We have audited the accompanying financial statements of Prince William Self-Insurance Group Casualty Pool (the "Pool") a component unit of the County of Prince William, Virginia, as of and for the years ended June 30, 2015 and 2014, and the related notes to the financial statements, which collectively comprise the Pool's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Prince William Self-Insurance Group Casualty Pool as of June 30, 2015 and 2014, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 5 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Government Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Introduction

This section of the Prince William Self-insurance Group Casualty Pool's (the "Pool") annual financial report presents a discussion and analysis of the financial performance of the Pool for the years ended June 30, 2015 and 2014. Please read it in conjunction with the financial statements, which follow this section.

Overview of the Financial Statements

The Pool's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America for state and local governmental entities. The primary purpose of the Pool is to make available a long-term, stable source of cost-effective casualty insurance protection for its members, who consist of Prince William County and the Prince William – Manassas Regional Adult Detention Center. The Pool operates in a manner similar to an insurance company and is considered a blended component unit of Prince William County. These financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. The three basic financial statements presented are as follows:

- **Statement of Net Position** – This statement presents information reflecting the Pool's assets, liabilities, and net position. The Pool's net position represents total assets less total liabilities. The statement of net position is categorized as to current and noncurrent assets and liabilities. For purposes of the financial statements, current assets and liabilities are those assets and liabilities with immediate liquidity or which are collectible or becoming due within 12 months of the statement date.
- **Statement of Revenues, Expenses, and Changes in Net Position** – This statement reflects the operating revenues and expenses, as well as non-operating revenues and expenses, and surplus distributions, if any, during the fiscal year. The major source of operating revenues is premium income and of non-operating revenue is investment income. The major operating expenses are losses and loss adjustment expenses related to claims, excess reinsurance premiums, and general administration expenses. The change in net position for the Pool is similar to net profit or loss for an insurance company.
- **Statement of Cash Flows** – The statement of cash flows is presented on the direct method of reporting, which reflects cash flows from operating, investing and financing activities. Cash collections and payments are reflected in this statement to arrive at the net increase or decrease in cash and cash equivalents for the fiscal year.
- **Notes to Financial Statements** – The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The notes to the basic financial statements can be found following the statement of cash flows.

Prince William Self-Insurance Group
Casualty Pool

Management's Discussion and Analysis (Unaudited)
June 30, 2015 and 2014

Financial Highlights

Fiscal Year 2015

Total assets as of June 30, 2015 decreased approximately \$285,000 in comparison to June 30, 2014.

Total liabilities as of June 30, 2015 decreased approximately \$577,000 in comparison to June 30, 2014 primarily as a result of a decrease in surplus distribution payable of approximately \$465,000 and in the overall claims reserves including IBNRs of approximately \$121,000.

Premiums earned for the year ended June 30, 2015 increased approximately \$99,000 in comparison to 2014 primarily as a result of an increase in budgeted premiums. This increase was primarily related to the increase in overall actual operating expenses.

Interest and investment income for the year ended June 30, 2015 decreased approximately \$32,000 in comparison to 2014 due primarily to market conditions yielding lower investment returns in 2015.

The Pool's loss ratio, which is derived as the ratio of claim losses and loss adjustment expenses to premiums earned, was 24% for 2015 down from 36% for 2014. There continues to be favorable loss reserve development as claims from prior years developed better than expected.

Fiscal Year 2014

Total assets as of June 30, 2014 decreased approximately \$193,000 in comparison to June 30, 2013.

Total liabilities as of June 30, 2014 increased approximately \$137,000 in comparison to June 30, 2013 primarily as a result of an increase in surplus distribution payable of approximately \$91,000 and in the overall claims reserves including IBNRs of approximately \$45,000.

Premiums earned for the year ended June 30, 2014 decreased approximately \$40,000 in comparison to 2013 primarily as a result of a decrease in budgeted premiums. This decrease was primarily related to the decrease in overall budgeted operating expenses.

Interest and investment income for the year ended June 30, 2014 decreased approximately \$85,000 in comparison to 2013 due primarily to market conditions yielding higher investment returns in 2014.

The Pool's loss ratio, which is derived as the ratio of claim losses and loss adjustment expenses to premiums earned, was 36% for 2014 up from 28% for 2013. There continues to be favorable loss reserve development as claims from prior years developed better than expected.

Prince William Self-Insurance Group
Casualty Pool

Notes to Basic Financial Statements
June 30, 2015 and 2014

Note 1. Summary of Significant Accounting Policies

The Prince William Self-Insurance Group Casualty Pool (the "Pool") prepares the financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"), as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the standard-setting body for governmental accounting and financial reporting. The GASB periodically updates its codification of the existing governmental accounting and financial reporting standards which, along with subsequent GASB pronouncements (statements and interpretations), constitutes GAAP for governmental units. The accounting and reporting framework and significant accounting principles and practices utilized by the Pool are discussed in subsequent sections of these notes to the financial statements. The remainder of the notes is organized to provide explanation, including required disclosures of the Pool's financial activities for the year ended June 30, 2015.

Reporting entity: For financial reporting purposes, the Pool's reporting entity is considered a component unit of Prince William County, Virginia (the "County"). Accordingly, the financial position, changes in financial position and cash flows of the Pool are blended in the internal service funds in the County's basic financial statements. The inclusion criteria which define the Pool as a component unit are:

- All the Pool's Board of Directors are appointed by the County; and
- A financial benefit/burden relationship exists.

General: Pursuant to the Commonwealth of Virginia's Insurance Regulations, the Prince William Self-Insurance Group Casualty Pool (the "Pool") was licensed by the State Corporation Commission of Virginia ("SCC") to begin operations on July 1, 1989.

The Pool's members consist of the County and the Prince William – Manassas Regional Adult Detention Center. The Prince William County Park Authority merged with Prince William County effective July 1, 2012.

The objective of the Pool is to make available a long-term, stable source of cost-effective casualty insurance protection for participating members. The policies concerning the financial and business affairs of the Pool are determined by the Board of County Supervisors (the "Board"), and the County is the predominant participant. Since the County is the predominant participant, the Pool is classified as an "entity other than a pool."

The Pool provides general liability (including public officials and police professionals), automobile liability, and automobile physical damage insurance protection to its members. The Pool is funded only by its members. The Pool has an arrangement with a third-party administrator to process claims (automobile liability, automobile physical damage subrogation claims, and certain general liability claims), perform claims adjustments, and authorize payment for such claims. Claims not administered by the third-party administrator are processed by the respective Pool member and/or the Office of the Prince William County Attorney. The Pool has also retained a pool administrator for assistance and advice in the daily operation of the Pool.

Basis of accounting: The Pool's financial statements have been prepared using the economic resources measurement focus and accrual basis of accounting.

Prince William Self-Insurance Group
Casualty Pool

Notes to Basic Financial Statements
June 30, 2015 and 2014

Note 1. Summary of Significant Accounting Policies (Continued)

Cash equivalents: Cash equivalents include all highly liquid investments with original maturities of three months or less and are stated at fair value. Restricted cash and cash equivalents are reported as noncurrent assets. At June 30, 2015 and 2014, cash equivalents consisted of money market mutual funds, which are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form.

Investments: Investments are stated at fair value. All investments with maturity or call dates greater than one year from the statement of net position date and all restricted investments are reported as noncurrent assets. Normally, the Pool holds such assets to maturity, unless called, in which case the assets are reinvested in the current market environment.

Premiums: Premiums charged to members are collected in advance and recognized ratably as revenue in the period for which insurance protection is provided. The premium is determined based on loss history and projected exposure for the year that insurance coverage is provided.

Unpaid losses and related expenses: Losses are charged to operations as incurred. The liability for unpaid losses is determined using case-basis evaluations and a provision for incurred but not reported losses that is based upon actuarial projections. Actuarial projections of ultimate losses are based on a composite of the Pool's members' experience and property and casualty insurance industry data, which is used to supplement the Pool's historical experience, and includes the effects of inflation and other factors. Claims liabilities include allocated loss adjustment expenses and are reported net of estimated amounts recoverable from excess reinsurance, salvage and subrogation, and the deductible portion of claims. Claims liabilities are not reported net of any discounting. A significant range of variability exists around the best estimate of the ultimate cost of settling all unpaid Pool claims; accordingly, the amount of the liability for unpaid losses and related expenses and the related provisions included in the financial statements may be more or less than the actual cost of settling all unpaid claims, and such variations could be significant. Adjustments to claim liabilities are made continually, based on subsequent developments and experience, and are included in operations as made.

Excess reinsurance premiums: Excess reinsurance premiums for risk coverage are recognized as expenses in the applicable contract period, which coincides with the Pool's fiscal year.

Federal and state taxes: The Pool has been granted a federal income tax exemption pursuant to Section 115 of the Internal Revenue Code and a state tax exemption by the State Department of Revenue. Therefore, no provision for taxes is included in the accompanying financial statements. The tax years from 2012 to 2014 remain subject to examination by taxing authorities.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and certain reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Operating revenues and expenses: The Pool's policy is to report all revenues and expenses as operating, with the exception of interest and investment income and other miscellaneous receipts.

Prince William Self-Insurance Group
Casualty Pool

Notes to Basic Financial Statements
June 30, 2015 and 2014

Note 1. Summary of Significant Accounting Policies (Continued)

Net position: Net position represents the difference between assets and liabilities in the financial statements. The net position of the Pool is divided into two categories; restricted and unrestricted. Restricted net position results from requirements imposed by the SCC. In accordance with the requirements of the SCC for the licensing of the Prince William Self-Insurance Group Casualty Pool, the Pool is required to deposit securities in the amount of \$500,000 with the Commonwealth of Virginia for additional collateral because the Pool does not maintain aggregate excess insurance. As of June 30, 2015 and 2014, the U. S. Government Agency security discussed in Note 2 were deposited with the Commonwealth of Virginia. While the security and funds were held by the Commonwealth of Virginia, they were held in the names of the Pool and the County. The required deposit is reflected as restricted investments of the Pool at June 30, 2015 and 2014, respectively. The remaining net position is reported as unrestricted.

Subsequent events: The Pool has evaluated subsequent events through September 30, 2015 in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued.

Note 2. Deposits and Investments

Deposits:

Custodial credit risk: At June 30, 2015 and 2014, the carrying values (book balances) of the Pool's deposits with banks and savings institutions were \$506,428 and \$586,674, respectively. The balances reported by the banks at June 30, 2015 and 2014 were \$606,675 and \$631,717, respectively. For deposits, custodial credit risk is the risk that in the event of a failure of a depository financial institution, the Pool may not recover its deposits. The Pool does not have a deposit policy for custodial credit risk. Of the bank balances, 100% was covered by federal depository related insurance or collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act"). Under the Act, banks holding public deposits in excess of the amounts insured by the Federal Deposit Insurance Corporation ("FDIC") must pledge collateral in the amount of 50% of excess deposits to a collateral pool in the name of the Commonwealth Treasury Board. If any member bank fails, the entire collateral pool becomes available to satisfy the claims of governmental entities. If the value of the Pool's collateral was inadequate to cover the loss, additional amounts would be assessed on a pro rata basis to the members of the Pool. Collateral is not specifically identified as security for any one public depositor and public depositors are prohibited from holding collateral in their name as security for deposits. With the ability to make additional assessments, the multiple bank collateral pool functions similar to depository insurance. Savings and loan institutions are required to collateralize 100% of deposits in excess of FDIC limits. The Commonwealth Treasury Board is responsible for monitoring compliance with the collateralization and reporting requirements of the Act. Funds deposited in accordance with the requirements of the Act are considered fully secured and not subject to custodial credit risk.

In addition, at June 30, 2015 and 2014, the Pool had \$92,851 and \$72,904, respectively, on deposit with a third-party claims administrator. Such amounts are covered by federal depository insurance or are fully collateralized.

Prince William Self-Insurance Group
Casualty Pool

Notes to Basic Financial Statements
June 30, 2015 and 2014

Note 2. Deposits and Investments (continued)

Investments:

The Pool's investment policy, pursuant to the *Code of Virginia* Sec. 2.2-4501 through 2.2-4518 is to invest in obligations of the United States or agencies thereof; "prime quality" commercial paper; certificates of deposits, negotiable bank notes and short-term corporate notes rated AAA or better by Standard & Poor's, Inc. and Aaa or better by Moody's Investors Service, Inc; banker's acceptances; repurchase agreements; money market mutual funds; and the State Treasurer's Local Government Investment Pool ("LGIP").

The Pool invests in an externally managed investment pool, the LGIP, which is not SEC-registered. Pursuant to Sec. 2.1-234.7 of the *Code of Virginia*, the Treasury Board of the Commonwealth sponsors the LGIP and has delegated certain functions to the State Treasurer. The LGIP reports to the Treasury Board at its regularly scheduled monthly meetings, and the fair value of the position in the LGIP is the same as the value of the pool shares. Investments authorized for the LGIP are the same as those authorized for local governments in Sec. 2.2-4500 et seq. of the *Code of Virginia*.

In accordance with the requirements of the SCC for the licensing of the Prince William Self-Insurance Group Casualty Pool, the Pool is required to deposit securities with the State Treasurer. As of June 30, 2015 and 2014, the Pool had \$799,416 and \$796,680 respectively, at fair value, in a U.S. Government agency security deposited with the State Treasurer to comply with the \$500,000 requirement as discussed in Note 1. While these investments are held by the State Treasurer, they are in the name of the Pool and are included in the investments of the Pool.

As of June 30, 2015 and 2014, the Pool's investments were as follows:

Investments	Weighted Average Maturity*		Fair Value	
	2015	2014	2015	2014
U. S. Government agency securities	1.737	3.016	\$ 2,500,816	\$ 3,297,277
LGIP	0.003	0.003	260,810	510,498
Money market mutual funds	0.003	0.003	1,111,546	285,516
			<u>\$ 3,873,172</u>	<u>\$ 4,093,291</u>

*Duration in years

Interest rate risk: As a means of limiting its exposure to fair value losses arising from increasing interest rates, the Pool's investment policy states that the weighted average maturity for the Pool portfolio may not exceed three years, except to the extent that assets are purchased specifically for collateral deposits with the Commonwealth of Virginia as required by the SCC. The final maturity of any individual security may not exceed five years from the time of purchase, except where an asset is matched to a specific obligation of the Pool.

Prince William Self-Insurance Group
Casualty Pool

Notes to Basic Financial Statements
June 30, 2015 and 2014

Note 2. Deposits and Investments (Continued)

Investments (Continued):

Credit risk: The *Code of Virginia* authorizes the Pool to invest in various instruments as described above. The Pool's investment policy, however, does not provide for investments in obligations of other states and political subdivisions outside of the Commonwealth of Virginia. To minimize credit risk, the Pool's investment policy seeks to diversify its portfolio by limiting the percentage of the portfolio that may be invested in any one type of instrument. The Pool has no official policy to limit investments based on ratings by nationally recognized statistical rating agencies. It is Pool policy to invest in negotiable Certificates of Deposits from banks with a rating of at least A-1 by Standard & Poor's and P-1 by Moody's Investor's Services. Furthermore, the Pool will only invest in money market or mutual funds with a rating of AAA by at least one nationally recognized statistical rating organization. During the year, the Pool made investments in money market mutual funds, LGIP, corporate bonds and obligations of agencies of the United States.

As of June 30, 2015 and 2014, the Pool's investment limits, ratings, and credit exposure are as follows:

Investment Type	Investment Policy Limit	Quality Quality (Rating)	Credit Exposure as a Percentage of Total Investments	
			2015	2014
U.S. Government Agency Securities	100%	AAA	64.57%	80.55%
LGIP/Money Market Mutual Funds	80%	AAAm/AAA	35.43%	19.45%
			100.00%	100.00%

Custodial credit risk: For investments, custodial credit risk is the risk that, in the event of the failure of the counter party, the Pool will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. However, the Pool's investment policy requires that all securities purchased by the Pool be properly and clearly labeled as an asset of the Pool and held in safekeeping by a third-party custodial bank or institution in compliance with Section 2.2-4515 of the *Code of Virginia*. Therefore, the Pool has no custodial credit risk.

Concentration of credit risk: The Pool places a limit on the amount it may invest in any one type of investment instrument as follows: 35% for commercial paper; 25% for corporate notes; 30% for banker's acceptances and negotiable Certificates of Deposit; 50% for repurchase agreements; 40% for non-negotiable certificates of deposit; 100% for U.S. Government Agency Obligations; and 80% for money market funds and LGIP.

In addition, the Pool places a limit on the amount it may invest with any single issuer as follows: 5% for commercial paper, banker's acceptance, and negotiable certificates of deposit; 10% for non-negotiable certificates of deposit and corporate notes; 20% for repurchase agreements; and 40% for money market funds or LGIP. More than 5% of the Pool's investments are in obligations issued by the following:

Investments	Investments		Percentage of Total Investments and Cash Equivalents	
	2015	2014	2015	2014
Federal Home Loan Mortgage Corporation	\$ 2,500,816	\$ 3,297,277	64.57%	80.55%

Prince William Self-Insurance Group
Casualty Pool

Notes to Basic Financial Statements
June 30, 2015 and 2014

Note 3. Excess Reinsurance

For fiscal years 2015 and 2014, the Pool's per occurrence retention was \$750,000, except for ambulances and fire trucks. For fiscal years 2015 and 2014, the Pool's per occurrence retention for ambulances and fire trucks was \$1,000,000.

The Pool provides for its excess reinsurance coverage through a commercial insurance carrier. The limits provided by the carrier above the Pool's retentions are as follows:

General liability	\$ 10,000,000/occurrence
Automobile liability	10,000,000/occurrence
Public officials' liability	10,000,000/occurrence
Police professional liability	10,000,000/occurrence

Excess reinsurance coverage for general, police professionals, and automobile liability is written on an occurrence basis. Excess reinsurance coverage for public official's liability is written on a claims made basis.

The Pool remains contingently liable for the ceded portion of any claims in the event the reinsurer is unable to pay its portion.

Note 4. Members' Supplemental Premiums and Credits

As provided for in the constitution and bylaws of the Pool, the Prince William Self-Insurance Group's Board of Directors has the authority to assess members' premiums for any deficits and may provide for a distribution in the case of a surplus. The distribution of surplus was \$0 and \$417,173 during the fiscal year 2015 and 2014, respectively. At June 30, 2015 and 2014, the intent of the Board of Directors was not to pay out all of the distribution payable in the near-term, but rather hold a portion for future distributions to its members to be used for risk control initiatives and/or apply as a credit to future fiscal year premiums.

Note 5. Related Parties Transactions

The Pool's offices are located within County office space, and the Pool utilizes the services of County personnel in its operations. As such, the Pool pays the County for certain administrative and personnel support services. Such expenses totaled \$147,500 in each of the fiscal years 2015 and 2014.

June 30, 2015 and 2014

Note 6. Liability for Unpaid Losses and Related Expenses

Activity in the liability for unpaid losses and related expenses is summarized as follows:

	2015	2014
Balance, July 1	\$ 672,832	\$ 627,767
Incurred related to:		
Current year	600,000	721,294
Prior years	(250,601)	(234,867)
Total incurred	349,399	486,427
Paid related to:		
Current year	245,609	349,114
Prior years	224,749	92,248
Total paid	470,358	441,362
Balance, June 30	\$ 551,873	\$ 672,832

The total paid amounts in the table above represent all claims paid during the year, including amounts paid by the County on behalf of the Pool for first party automobile claims. Amounts paid by the County and not reimbursed by the Pool as of year-end are recorded within due to related parties.

Management's estimate of the portion of the liability as of June 30, 2015 and 2014 to be paid within one year was \$399,000 and \$391,000, respectively. This estimate is based on the Pool's past experience.

There was favorable loss reserve development during the years ended June 30, 2015 and 2014 as claims developed better than expected. No individual events were responsible for a significant portion of the change.

Note 7. Commitments and Contingencies

The members of the Pool are contingently liable with respect to certain lawsuits, as well as asserted and unasserted claims, that have arisen in the ordinary course of the members' operations. It is the opinion of the Pool, the County management, and the County Attorney that losses, if any, which may ultimately be incurred as a result of these claims in excess of amounts provided for in the accompanying financial statements will not be material to the Pool or the County taken as a whole.
