The County works with numerous organizations to deliver effective and efficient services to the community. Community partners are non-profit organizations that receive funding directly from or through the County government. Typically, community partners help reduce the cost of services through the leveraging of scarce County resources with other funding sources and fundraising. Often County residents can receive direct services more quickly when community partners are utilized.

The funding provided to community partners can be categorized as follows:

- **A. Donations** These organizations receive funding via donation and in accordance with a memorandum of understanding that has defined service level targets. Performance is reviewed annually by the County agency that oversees the service delivery, known as the host agency. The annual financial statements for each partner receiving current year funding are reviewed by the Finance Department. For more information, please view the County's <u>Community Partner policy</u>.
- **B.** Interjurisdictional Agreements These organizations receive funding according to formulae, criteria, or other requirements. This includes support of certain community infrastructure improvements approved by the Board of County Supervisors.
- **C.** Memberships The County chooses to be a member of some regional and/or national organizations.
- **D.** Grants and Matching Funds These organizations receive funding provided from pass-through grants from the federal or state government and direct County grants that leverage other sources of funding.

General Overview

Community Partners Changes in the Proposed FY2022 Budget – The Proposed FY2022 Budget includes a 3.0% donation increase for current community partners. The Proposed FY2022 Budget eliminates funding for Free Clinic which ceased operation in FY21.
