2019 Prince William County Parks and Recreation Needs Assessment Survey

Executive Summary

Overview

ETC Institute administered a Parks and Recreation Survey for Prince William County in the winter of 2019. The survey was conducted as part of the County's efforts to assist in prioritizing demands and opportunities that will improve and maintain parks, recreation facilities, programs, and services. The results of this survey will guide the County in making decisions that will best serve the needs of its residents.

Methodology

ETC Institute mailed a survey packet to a random sample of households in Prince William County, Virginia. Each survey packet contained a cover letter, a copy of the survey, and a postage-paid return envelope. Residents who received the survey were given the option of returning the survey by mail or completing it online at www.PWCSurvey.org.

Ten days after the surveys were mailed, ETC Institute sent emails and placed phone calls to the households that received the survey to encourage participation. The emails contained a link to the online version of the survey to make it easy for residents to complete. To prevent people who were not residents of Prince William County from participating, everyone who completed the survey online was required to enter their home address prior to submitting the survey. ETC Institute then matched the addresses that were entered online with the addresses that were originally selected for the random sample. If the address from a survey completed online did not match one of the addresses selected for the sample, the online survey was not counted.

The goal was to obtain completed surveys from at least 2,400 residents. The goal was exceeded with a total of 2,455 residents completing the survey. The overall results for the sample of 2,455 households have a precision of at least +/-1.97% at the 95% level of confidence.

This report contains the following:

- Charts showing the overall results of the survey (Section 1)
- Priority Investment Rating (PIR) that identifies priorities for facilities and programs (Section 2)
- Benchmarking analysis comparing the City's results to national results (Section 3)
- Tabular data showing the overall results for all questions on the survey (Section 4)
- A copy of the survey instrument (Section 5)

The major findings of the survey are summarized on the following pages.

Use and Rating of Parks and Facilities

Use. Seventy-four percent (74%) of respondent households indicated they had visited Prince William County Parks and Recreation parks or facilities in the past 12 months.

Rating. Of the households that had visited Prince William County Parks and Recreation parks or facilities in the past 12 months (74%), over three-quarters (77%) rated the overall physical condition of the parks and facilities as “excellent” (19%) or “good” (58%). Nineteen percent (19%) of respondents gave the overall physical condition of the parks/facilities a “fair” rating, 2% of respondent households gave the overall physical condition of the parks/facilities a “below average” rating and 1% of respondents gave the overall physical condition of the parks/facilities a “poor” rating.

Organizations Used for Parks and Recreation Needs

Respondent households were asked, from a list of 12 various organizations, to indicate the entities they have used for parks, trails, and recreation activities during the past 12 months. The highest rated include: Prince William County parks (60%), State of Virginia (48%), and National parks (41%). Respondents indicated the organizations that they and/or their household members use most, based on the sum of their top two choices, were: Prince William County parks (39%), schools (19%), and State of Virginia parks (18%).

Facility Needs and Priorities

Facility Needs: Respondents were asked to identify if their household had a need for 34 recreation facilities and rate how well their needs for each were currently being met. Based on this analysis, ETC Institute was able to estimate the number of households in the community that had the greatest “unmet” need for various facilities.

The top four recreation facilities with the highest percentage of households that indicated a need for the facility were: walking and biking trails (72%), picnic areas and shelters (56%), indoor fitness and exercise facilities (55%), and small neighborhood parks (52%). ETC Institute estimates a total of 105,676 households out of the 145,961 households in Prince William County have a need for walking and biking trails, an estimated total of 81,592 households out of the 145,961 households in Prince William County have a need for picnic areas and shelters, and an estimated total of 80,133 households out of the 145,961 households in Prince William County have a need for indoor fitness and exercise facilities. ETC Institute estimates a total of 57,171 households out of the 145,961 households in Prince William County have unmet needs for walking and biking trails, an estimated total of 43,506 households out of the 145,961 households in Prince William County have unmet needs for waterfront parks, an estimated total of 42,210 households out of the 145,961 households in Prince William County have unmet needs for small neighborhood parks and an estimated total of 39,424 households out of the 145,961 households in Prince William County have unmet needs for an indoor walking track. The estimated number of households that have unmet needs for each of the 34 facilities that were assessed is shown in the chart at the top of the following page.

Q4. Estimated Number of Households Whose Needs for Facilities are Being Met 50% or Less

by number of households based on an estimated total of 145,961 households in Prince William County, Virginia

Facility Importance: In addition to assessing the needs for each facility, ETC Institute also assessed the importance that residents placed on each facility. Based on the sum of respondents' top four choices, the four most important facilities to residents were:

1. walking and biking trails (43%),
2. natural wildlife habitats (22%),
3. indoor fitness and exercise facilities (20%), and
4. large regional parks (20%).

The percentage of residents who selected each facility as one of their top four choices is shown in the chart at the top of the following page.

Q5. Facilities That Are Most Important to Respondent Households

by percentage of respondents who selected the items as one of their top four choices

Priorities for Facility Investments. The **Priority Investment Rating (PIR)** was developed by ETC Institute to provide organizations with an objective tool for evaluating the priority that should be placed on Parks and Recreation investments. The **Priority Investment Rating (PIR)** equally weights (1) the importance that residents place on facilities and (2) how many residents have unmet needs for the facility. [Details regarding the methodology for this analysis are provided in Section 2 of this report.]

Based the **Priority Investment Rating (PIR)**, the following six facilities were rated as high priorities for investment:

- Walking and biking trails (PIR=200.0)
- Natural wildlife habitats (PIR=118.8)
- Small neighborhood parks (PIR=110.6)
- Indoor fitness and exercise facilities (PIR=109.2)
- Picnic areas and shelters (PIR=105.2)
- Waterfront parks (PIR=104.2)

The chart at the top of the following page shows the **Priority Investment Rating (PIR)** for each of the 34 facilities that were assessed on the survey.

Program Needs and Priorities

Program Needs. Respondents were also asked to identify if their household had a need for 23 recreational programs and rate how well their needs for each program were currently being met. Based on this analysis, ETC Institute was able to estimate the number of households in the community that had “unmet” needs for each program.

The four programs with the highest percentage of households that had needs were: adult fitness and wellness programs (64%), nature programs (43%), family programs (40%), and food trucks in parks (38%). ETC Institute estimates a total of 93,999 households out of the 145,961 households in Prince William County have a need for adult fitness and wellness programs, an estimated total of 62,617 households out of the 145,961 households in Prince William County have a need for nature programs, an estimated total of 58,968 households out of the 145,961 households in Prince William County have a need for family programs, and an estimated total of 56,049 households out of the 145,961 households in Prince William County have a need for food trucks in parks. ETC Institute estimates a total of 55,835 households out of the 145,961 households in Prince William County have unmet needs for adult fitness and wellness programs, an estimated total of 48,258 households out of the 145,961 households in Prince William County have unmet needs for food trucks in parks, an estimated total of 45,335 households out of the 145,961 households in Prince William County have unmet needs for nature programs, and an estimated total of 42,339 households out of the 145,961 households in Prince William County have unmet needs for family programs. The estimated number of households that have unmet needs for each of the 23 programs that were assessed is shown in the chart at the top of the following page.

Q9. Estimated Number of Households Whose Needs for Recreation Programs are Being Met 50% or Less

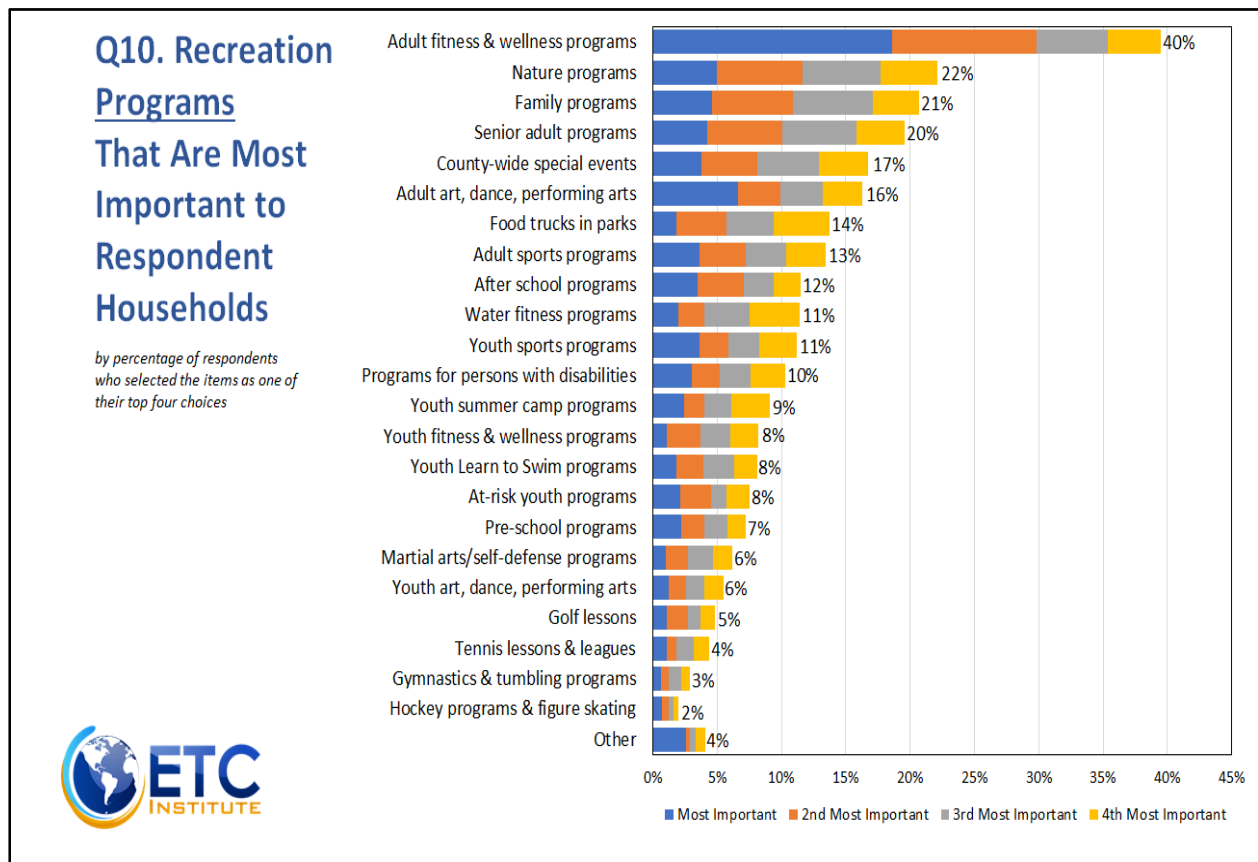

by number of households based on an estimated total of 145,961 households in Prince William County, Virginia

Program Importance. In addition to assessing the needs for each program, ETC Institute also assessed the importance that residents placed on each program. Based on the sum of respondents' top four choices, the four most important programs to residents were:

1. adult fitness and wellness programs (40%),
2. nature programs (22%),
3. family programs (21%), and
4. senior adult programs (20%).

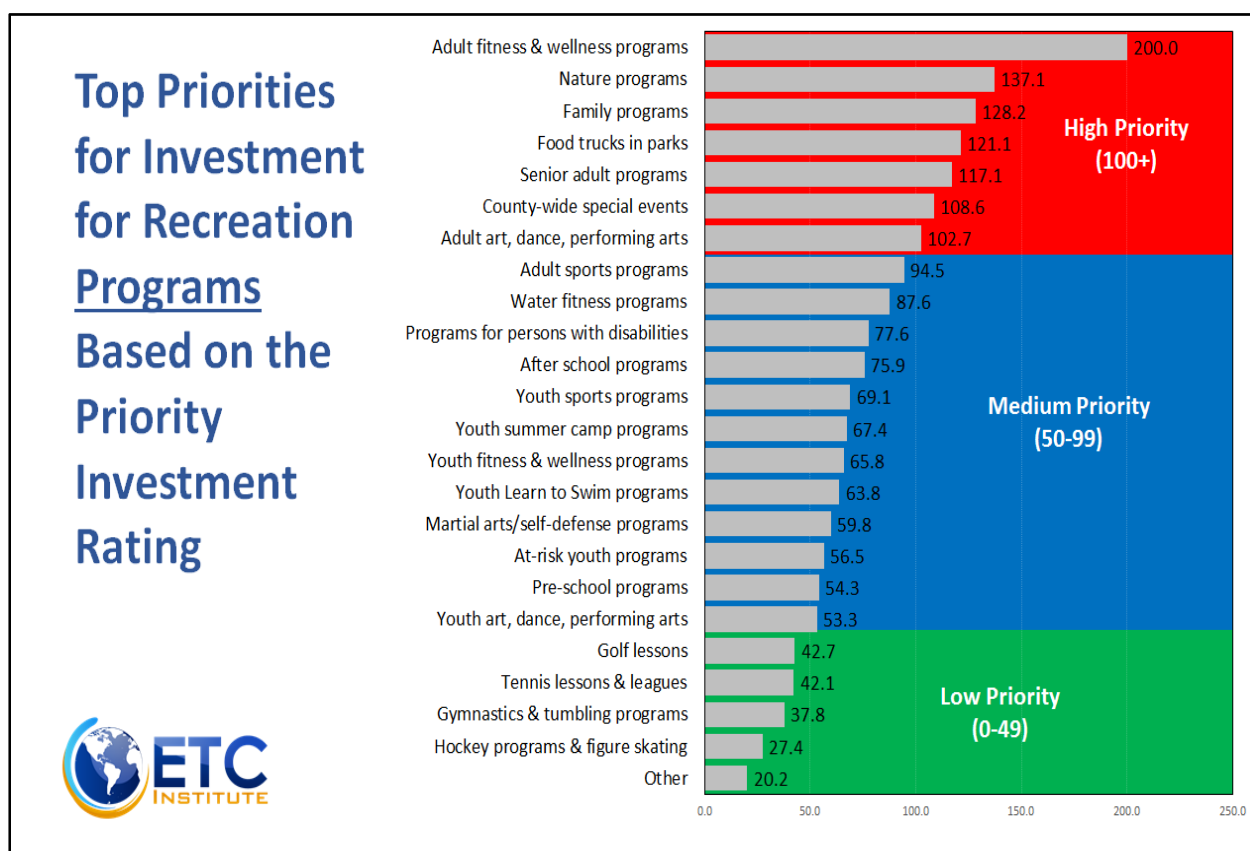

The percentage of residents who selected each program/activity as one of their top four choices is shown in the chart at the top of the following page.

Priorities for Program Investments. Based on the **Priority Investment Rating (PIR)**, which was described briefly on Page iv of this Executive Summary and is described in more detail in Section 2 of this report, the following seven programs were rated as “high priorities” for investment:

- Adult fitness and wellness programs (PIR=200.0)
- Nature programs (PIR=137.1)
- Family programs (PIR=128.2)
- Food trucks in parks (PIR=121.1)
- Senior adult programs (PIR=117.1)
- County-wide special events (PIR=108.6)
- Adult art, dance, performing arts (PIR=102.7)

The chart at the top of the following page shows the **Priority Investment Rating (PIR)** for each of the 23 programs that were rated.

Additional Findings

Purchasing. The highest levels of support for various actions that the County could take to improve the Parks and Recreation system, based on the combined percentages of “very supportive” and “supportive” responses among residents *who had an opinion*, were: purchasing land for passive use parks and trails (89%) and land to preserve open space/green space for future generations (88%).

Developing. The highest levels of support for various actions that the County could take to improve the Parks and Recreation system, based on the combined percentages of “very supportive” and “supportive” responses among residents *who had an opinion*, were: develop new walking/biking trails and connect existing trails (91%), develop new indoor recreation centers with pool, fitness gyms, etc. (73%), and develop new community gardens (67%).

Expanding. The highest levels of support for various actions that the County could take to improve the Parks and Recreation system, based on the combined percentages of “very supportive” and “supportive” responses among residents *who had an opinion*, were: fix-up/repair existing outdoor park facilities (90%), inclusion support and programs for people with disabilities (61%), and upgrade existing recreation centers (82%).

The Parks and Recreation facilities that are most important to their household, based on the sum of respondents’ top four choices, were: new walking/biking trails and connect existing trails (41%), land to preserve open space/green space for future generations (30%), and land for passive use parks and trails (23%). The actions that the County could take to improve the Parks

and Recreation system, that are most important to respondent households, were: new walking/biking trails and connect existing trails (32%), land to preserve open space/green space for future generations (31%), fix-up/repair existing outdoor park facilities (24%), and land for passive use parks and trails (22%).

Over half (55%) of respondents indicated they are either “very satisfied” (18%) or “somewhat satisfied” (37%) in the overall value their household receives from the Prince William County Parks.

Respondents were given a list of 20 various reasons that prevent them or household members from using parks, trails, recreation facilities, or programs of Prince William County Parks more often. The top-rated reasons that prevent the usage of parks were: I do not know what is being offered (39%), parks too far from our residence (29%), lack of trails (26%), and I do not know locations of parks/facilities (25%).

Forty-four percent (44%) of respondent households indicated they currently learn about parks, trails, programs, and activities of Prince William County Parks from friends and neighbors. The most preferred method of learning about parks, trails, programs, and activities of Prince William County Parks, based on the sum of respondents' top three choices, were: quarterly Parks and Recreation magazine (42%) and Parks and Recreation website (41%).

Over half (65%) of respondent households indicated that if a referendum were held to fund a dedicated tax to increase parks and recreation resources in Prince William County, they would either “vote in favor” (35%) or “might vote in favor” (30%).

Recommendations

To ensure Prince William County meets the needs and expectations of the community, ETC Institute recommends that the Parks and Recreation Department sustain and/or improve the performance in areas that were identified as “high priorities” by the **Priority Investment Rating (PIR)**. The facilities and programs with the highest PIR ratings are listed below.

Facility Priorities

- Walking and biking trails (PIR=200.0)
- Natural wildlife habitats (PIR=118.8)
- Small neighborhood parks (PIR=110.6)
- Indoor fitness and exercise facilities (PIR=109.2)
- Picnic areas and shelters (PIR=105.2)
- Waterfront parks (PIR=104.2)

Program Priorities

- Adult fitness and wellness programs (PIR=200.0)
- Nature programs (PIR=137.1)
- Family programs (PIR=128.2)
- Food trucks in parks (PIR=121.1)
- Senior adult programs (PIR=117.1)
- County-wide special events (PIR=108.6)
- Adult art, dance, performing arts (PIR=102.7)

Charts and Graphs

2019 Prince William County Community Interest and Opinion Survey Charts and Graphs of Overall Results

...helping organizations make better decisions since 1982

Q1. Have you or members of your household visited any Prince William County Parks and Recreation parks or facilities in the past 12 months?

by percentage of respondents

Q1a. How would you rate the overall physical condition of Prince William County Parks and Recreation parks and facilities that you have visited?

by percentage of respondents who have visited parks or facilities in the past 12 months

Q2. From the following list, please CHECK ALL the organizations your household has used for parks, trails, and recreation activities during the past 12 months.

by percentage of respondents (multiple choices could be chosen)

Q3. Which TWO organizations listed in Question 2 does your household USE MOST for parks, trails, sports, and recreation programs and services?

by percentage of respondents (sum of respondents' top two choices)

Q4. Recreation Facilities

Respondent Households Have a Need For

*by percentage of respondents
(multiple choices could be chosen)*

Q4. Estimated Number of Households that Have a Need for Facilities

by number of households based on an estimated total of 145,961 households in Prince Edward County, Virginia

Q4. How Well Facilities Meet the Needs to Respondent Households

by percentage of respondents with a need for recreation facilities

Q4. Estimated Number of Households Whose Needs for Facilities are Being Met 50% or Less

by number of households based on an estimated total of 145,961 households in Prince William County, Virginia

Q5. Facilities That Are Most Important to Respondent Households

by percentage of respondents who selected the items as one of their top four choices

Q6(1-3). Purchasing: The following are actions that Prince William County could take to improve our Parks and Recreation system. Please indicate how supportive you would be of each action.

by percentage of respondents who rated the item as a 1 to 4 on a 4-point scale (without "not provided")

Q6(4-24). Developing: The following are actions that Prince William County could take to improve our Parks and Recreation system. Please indicate how supportive you would be of each action.

by percentage of respondents who rated the item as a 1 to 4 on a 4-point scale (without "not provided")

Q6(25-35). Expanding: The following are actions that Prince William County could take to improve our Parks and Recreation system. Please indicate how supportive you would be of each action.

by percentage of respondents who rated the item as a 1 to 4 on a 4-point scale (without "not provided")

Q7. Which FOUR of the facilities from the list in Question 6 are MOST IMPORTANT to your household?

by percentage of respondents who selected the items as one of their top four choices

Q8. Which FOUR actions from the list in Question 6 above are MOST IMPORTANT for the County to fund?

by percentage of respondents who selected the items as one of their top four choices

Q9. Recreation Programs that Respondent Households Have a Need For

*by percentage of respondents
(multiple choices could be chosen)*

Q9. Estimated Number of Households that Have a Need for Various Recreation Programs

by number of households based on an estimated total of 145,961 households in Prince William County, Virginia

Q9. How Well Respondent Household's Recreation Program Needs Are Being Met

by percentage of respondents with a need for recreation programs

Q9. Estimated Number of Households Whose Needs for Recreation Programs are Being Met 50% or Less

by number of households based on an estimated total of 145,961 households in Prince William County, Virginia

Q10. Recreation Programs That Are Most Important to Respondent Households

by percentage of respondents who selected the items as one of their top four choices

Q11. Please rate your satisfaction with the overall value your household receives from the Prince William County Parks.

by percentage of respondents

Q12. Please CHECK ALL the reasons that prevent you or other members of your household from using parks, trails, recreation facilities, or programs of Prince William County Parks more often.

by percentage of respondents

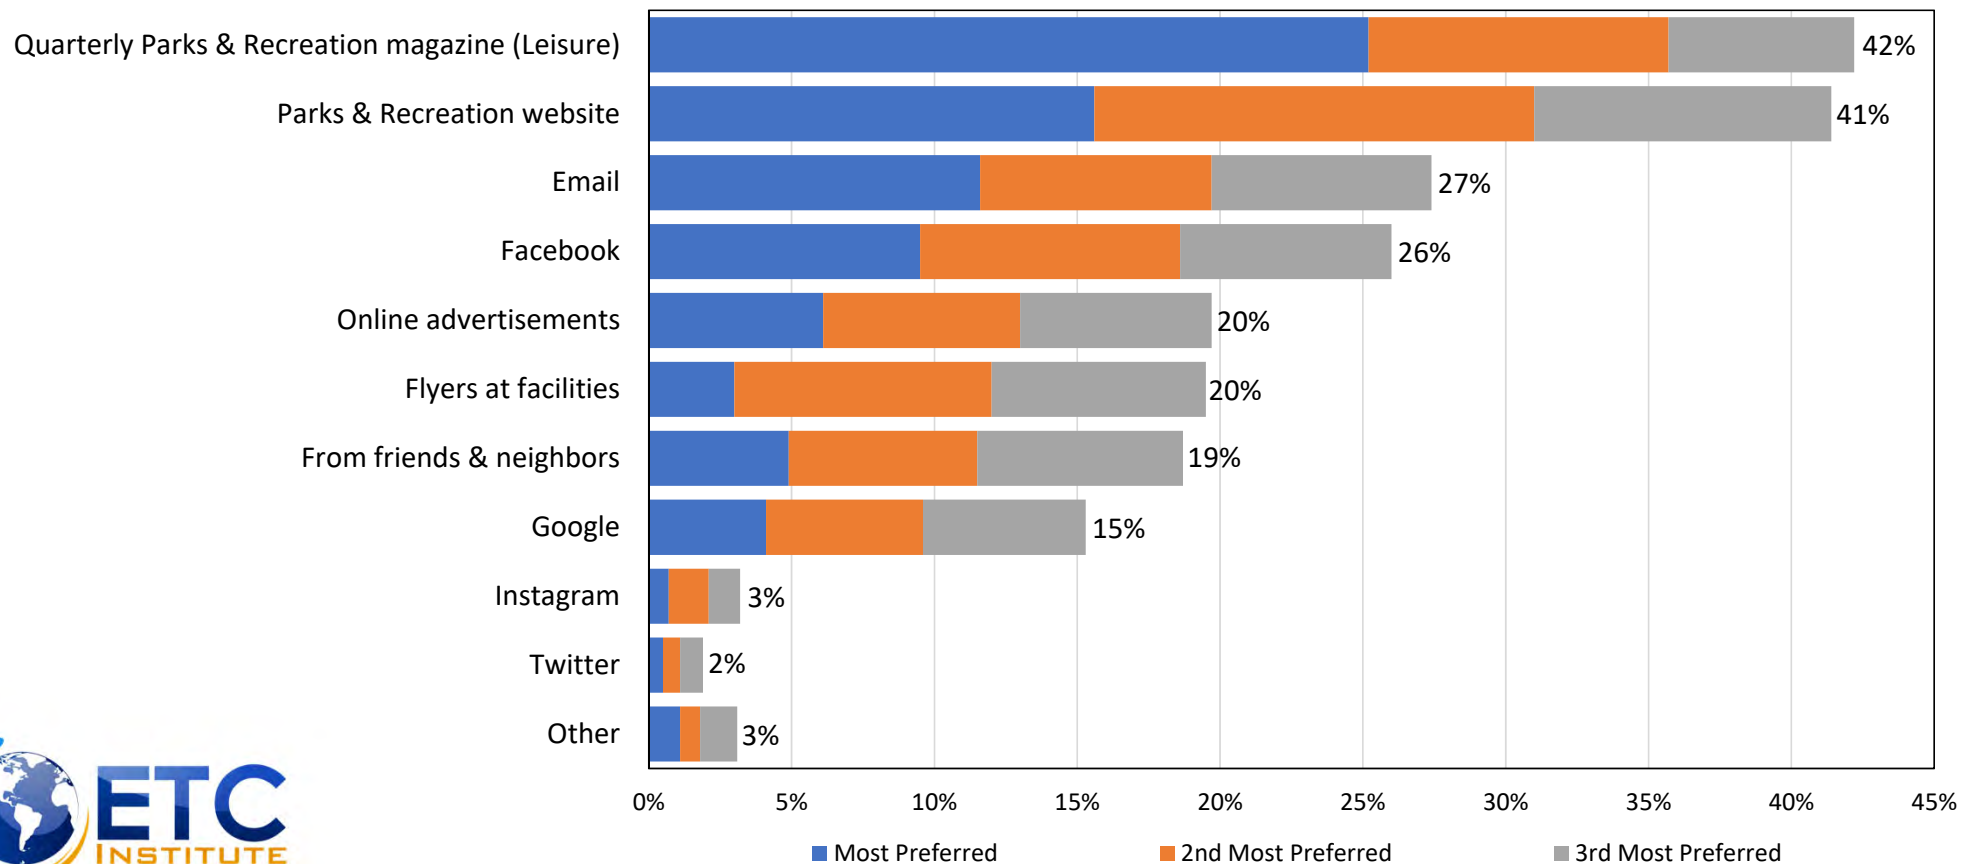

Q13. Please CHECK ALL the ways you currently learn about parks, trails, programs, and activities of Prince William County parks.

by percentage of respondents

Q14. From the list in Question 13, please indicate the **THREE** ways you most prefer to learn about parks, trails, programs and activities of Prince William County Park.

by percentage of respondents

Q15. If a referendum were held to fund a dedicated tax to increase parks and recreation resources in Prince William County, how would you vote?

by percentage of respondents

Demographics

by percentage of respondents

Q22. How many years have you lived in Prince William County?

by percentage of respondents

Magisterial District

by percentage of respondents

Section 2

Priority Investment Rating

Priority Investment Rating

Prince William County, Virginia

The **Priority Investment Rating (PIR)** was developed by ETC Institute to provide governments with an objective tool for evaluating the priority that should be placed on parks and recreation investments. The Priority Investment Rating was developed by ETC Institute to identify the facilities and programs residents think should receive the highest priority for investment. The priority investment rating reflects the importance residents place on items (sum of top 4 choices) and the unmet needs (needs that are only being partly or not met) for each facility/program relative to the facility/program that rated the highest overall. Since decisions related to future investments should consider both the level of unmet need and the importance of facilities and programs, the PIR weights each of these components equally.

The PIR reflects the sum of the Unmet Needs Rating and the Importance Rating as shown in the equation below:

$$\text{PIR} = \text{UNR} + \text{IR}$$

For example, suppose the Unmet Needs Rating for adult athletic fields is 40.4 (out of 100) and the Importance Rating for adult athletic fields is 18.8 (out of 100), the Priority Investment Rating for adult athletic fields is 59.3 (out of 200).

How to Analyze the Charts:

- **High Priority Areas** are those with a PIR of at least 100. A rating of 100 or above generally indicates there is a relatively high level of unmet need and residents generally think it is important to fund improvements in these areas. Improvements in this area are likely to have a positive impact on the greatest number of households.
- **Medium Priority Areas** are those with a PIR of 50-99. A rating in this range generally indicates there is a medium to high level of unmet need or a significant percentage of residents generally think it is important to fund improvements in these areas.
- **Low Priority Areas** are those with a PIR below 50. A rating in this range generally indicates there is a relatively low level of unmet need and residents do not think it is important to fund improvements in these areas. Improvements may be warranted if the needs of very specialized populations are being targeted.

The following pages show the Unmet Needs Rating, Importance Rating, and Priority Investment Rating for facilities and programs.

Benchmarking Analysis

Benchmarking Summary Report

Prince William County, Virginia

Since 1998, ETC Institute has conducted household surveys for needs assessments, feasibility studies, customer satisfaction, fees and charges comparisons, and other parks and recreation issues in more than 400 communities in 49 states across the country.

The results of these surveys has provided an unparalleled data base of information to compare responses from household residents in client communities to “National Averages” and therefore provide a unique tool to “assist organizations in better decision making.”

Communities within the data base include a full-range of municipal and county governments from 20,000 in population through over 1 million in population. They include communities in warm weather climates and cold weather climates, mature communities and some of the fastest growing cities and counties in the country.

“National Averages” have been developed for numerous strategically important parks and recreation planning and management issues including: customer satisfaction and usage of parks and programs; methods for receiving marketing information; reasons that prevent members of households from using parks and recreation facilities more often; priority recreation programs, parks, facilities and trails to improve or develop; priority programming spaces to have in planned community centers and aquatic facilities; potential attendance for planned indoor community centers and outdoor aquatic centers; etc.

Results from household responses for Prince William County, Virginia were compared to National Benchmarks to gain further strategic information. A summary of all tabular comparisons are shown on the following page.

Note: The benchmarking data contained in this report is protected intellectual property. Any reproduction of the benchmarking information in this report by persons or organizations not directly affiliated with Prince William County is not authorized without written consent from ETC Institute.

Section 5

Survey Instrument

Dear Prince William County Resident,

Our goal is to provide residents with the highest level of parks and recreation services within our allotted resources. We strive to stay atop the cutting edge of our industry and provide the most relevant services for the needs of today and tomorrow. To that end, we are conducting a needs assessment survey.

Your household was randomly selected to participate in this survey giving you a unique opportunity to shape the future of your community!

Please take 10-15 minutes to complete the enclosed survey. Please read each question carefully and provide us with answers to help us understand how your household uses recreation facilities and programs in Prince William County and how well they are meeting your household's recreation needs.

Please complete and return your survey within the next two weeks.

We have selected ETC Institute, an independent consulting company, as our partner to administer this survey. They will compile the data received and will present the results to the department. Your responses will remain confidential. Please return your completed survey in the enclosed postage-paid envelope addressed to ETC Institute, 725 W. Frontier Circle, Olathe, KS 66061. If it is more convenient, you may also complete the survey online at www.pwcsurvey.org.

If you have questions about this survey, please contact Brent Heavner at 703-792-5503 or bheavner@pwcgov.org.

This Needs Assessment Survey will benefit all Prince William County residents. Please take this opportunity to let your voice be heard!

Thank You,

A handwritten signature in black ink that reads "Seth Hendler-Voss".

Seth Hendler-Voss

Director

Prince William County Dept. of Parks, Recreation & Tourism

2019 Prince William County Community Interest and Opinion Survey

Let your voice be heard today!

Prince William County Parks would like your input to help determine parks, trails, open space and recreation priorities for our community. This survey will take 10-15 minutes to complete. When you are finished, please return your survey in the enclosed postage-paid, return-reply envelope. If you prefer, you can complete the survey online at pwcsurvey.org. We greatly appreciate your time and efforts to improve the quality of life in Prince William County.

1. Have you or members of your household visited any Prince William County Parks and Recreation parks or facilities in the past 12 months?

____(1) Yes [Answer Q1a.] ____ (2) No [Skip to Q2.]

1a. How would you rate the overall physical condition of Prince William County Parks and Recreation parks and facilities that you have visited?

____(1) Excellent ____ (3) Fair ____ (5) Poor
 ____ (2) Good ____ (4) Below average

2. From the following list, please CHECK ALL the organizations your household has used for parks, trails, and recreation activities during the past 12 months.

____ (01) Schools	____ (08) Private clubs (tennis/fitness/dance)
____ (02) State of Virginia parks	____ (09) Prince William County Parks
____ (03) Private youth sports teams	____ (10) Homeowners associations/apartment complex
____ (04) Boys and Girls Club	____ (11) Nearby Cities and Townships
____ (05) Fairfax County Parks	____ (12) Northern Virginia Regional Park Authority
____ (06) Churches	____ (13) Other: _____
____ (07) National Parks	____ (14) None; do not use any organizations

3. Which TWO organizations listed in Question 2 does your household USE MOST for parks, trails, sports, and recreation programs and services? [Write in your answers below using the numbers from the list in Question 2, or circle "NONE."]

1st: ____ 2nd: ____ NONE

- 4. Please indicate whether you have a need for each of the following recreation facilities by circling either "Yes" or "No." If "Yes," please indicate how well your needs are being met for facilities of this type in Prince William County.**

Type of Facility	Do you have a need for this facility?		If "Yes," how well are your needs being met?
